

Outdoor four person Sauna Room

Product Description

Exercise is hard to keep up, so let's take a sauna!

Multiple exercise options in one sauna room.

Relax and improve your quality of life.

- Relieve fatigue
- Relieve stress
- Improve metabolism
- Improve skin character
- Boost the immune system

The new generation of non-radiated carbon crystal far-infrared heating plate is used, with smooth wavelengths and better therapeutic effects, providing you with far-infrared therapeutic three-dimensional surround heating.

The exterior design is atmospheric with a curved top outer frame and a spacious and comfortable interior. The tongue and groove design is quick to assemble and quality is guaranteed with factory direct sales.

The exterior has a waterproof design and supports outside use.

Single-side LCD control panel to open up intelligent physiotherapy living. Easy control of temperature, time, light and music.

Model number	KX-904VS
