GUIDE NOTE:

1.Preparation

- 1) Ensure that you have received all the necessary parts and inspect them for any damage.
- 2) Read through the entire manual to familiarize yourself with the assembly process.

2.Preparing for Assembly

Clear a suitable workspace with enough room to assemble the product.

3.Assembly Process

Refer to the diagrams and written instructions in the manual for each step to ensure the correct order and method of assembly. And ensure each part is installed correctly and then securely fastened with screws or bolts.

Do not tighten all the screws until all the fittings are in place !

Please use the wrench to tighten screws.

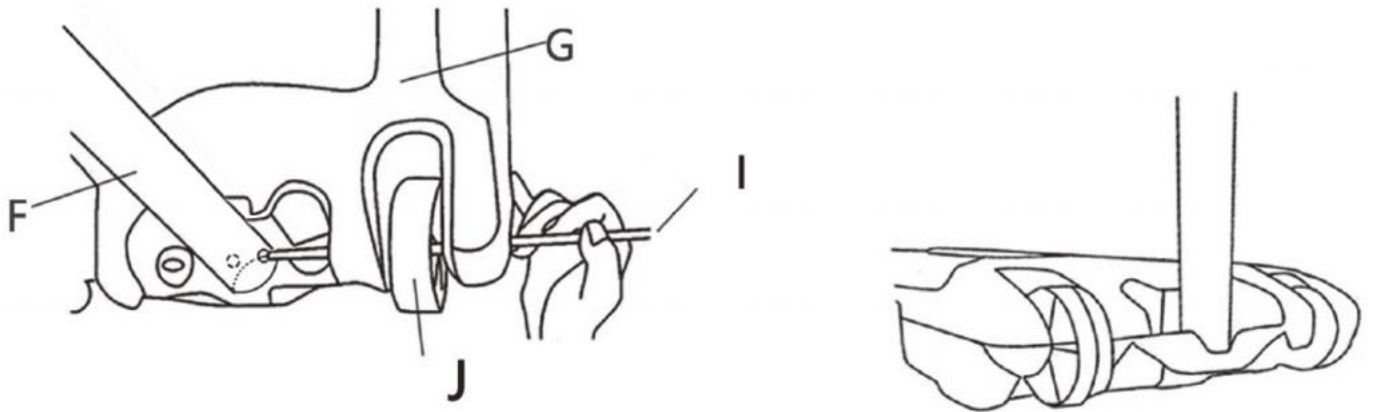

4.Completion

- 1) After completing the final assembly step, carefully inspect all connection points and screws to ensure they are secure.

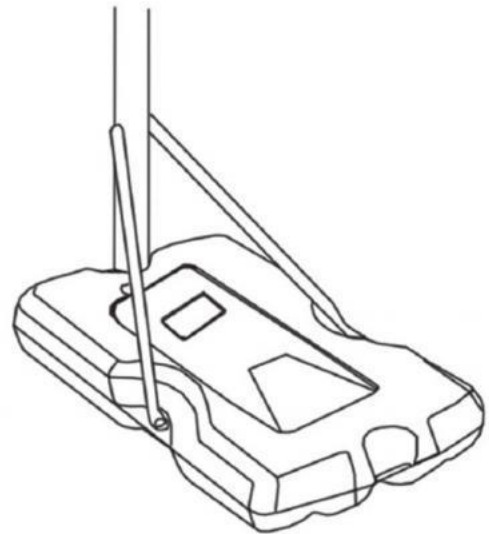

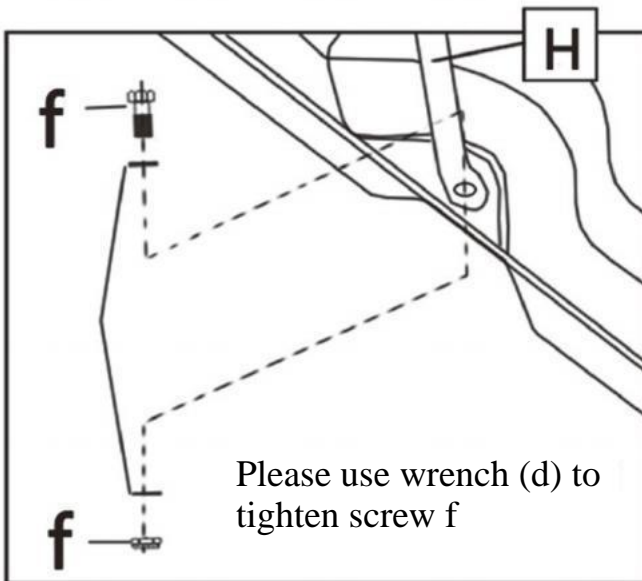

- 2) Clean up the workspace, discarding any excess packaging materials.

If you encounter any difficulties or have any questions during the assembly process, please contact our customer service team for assistance.
