

Chaddock Furniture Care

Housekeeping tips for wood and upholstered furniture

CARING FOR WOOD FURNITURE

- Your Chaddock furniture will provide years (and even generations) of beautiful use if treated with care. Maintain the fine finish by simply dusting with a soft clean cloth, always rubbing with the grain. Every two to four months, polish with a quality furniture polish. Apply the polish in a thin even coat with a dry cloth, rubbing with the wood grain. Buff with a fresh dry cloth while polish is still moist for a rich lustrous finish. Enjoy!
- Chaddock finishes are resistant to minor everyday hazards, but carelessness with cigarettes, hot dishes and liquids like nail polish, alcohol and water, will harm the fine finish. Create a buffer between your furniture and these hazards with placemats or pads when eating or writing. Address spills and smudges immediately.
- Other oft-overlooked enemies of fine furniture are rubber lamp bases, lamp cords and some plastics. In direct contact with fine furniture, over time they can soften and injure the finish. There's an easy work-around. Simply place a piece of felt under these materials to buffer direct contact.

CARING FOR UPHOLSTERED FURNITURE

- Clean your furniture by dusting and vacuuming. Wipe up spills immediately. Always follow the standard "Cleaning Codes" for upholstery fabric items. Reverse and fluff seat cushions and back pillows periodically. Full-grain leather is a natural product. For dusting, use dry, clean, cotton cloths. Do not use chemicals, saddle soap, cleaning solvents, furniture polish, oils, varnish, abrasive cleaners, soaps, or ammonia water.

CARING FOR BRASS AND METAL

- Maintain with regular dusting. Clean with mild soap and water, dry thoroughly. Do not use a brass cleaner. Wipe up spills immediately.
