

Durable Design - Constructed of a robust durable housing, high-transmittance PC diffusion cover, long-lasting led chips and energy-efficient LED driver, the commercial led high bay lighting fixtures ensure high performance for more than 50,000-hour of continuous use or 23-years when on every day for 6-hours/day.

Up to 80% Energy Savings - The LED linear high bay light emits an extreme 36000 Lumens of premium LEDs with 5000K color temperature. This fixture providing a high efficient and uniform lighting, no UV or IR radiation, no hum, up to 80% energy saving.

Wide Application - With an enclosed power supply and covered optics, the LED high bay lights are designed for durability in commercial/industrial applications. With a beam angle of 120°, high efficiency, made them become a perfect solution for those commercial areas where need bright lighting, such as garages, warehouses, gyms, manufacturing space and large retail spaces.

Easy Installation- These high bay lights can be easily hung to the ceiling with the included chains and V-hooks.

5 years Warranty - Our high bay lights are offered 5 years warranty against any defect in materials and workmanship, covers most damage and shipping costs for replacements. Contact us for any quality issues.

Specifications:

Total Power: 240W

Lumens: 36000LM

Color Temperature: 5,000K

Power Factor: >90%

Input Voltage: AC100-277V 50/60Hz

LED Type: SMD3030 LED chips with 150Lm/W

Housing Materials: Aluminum

Beam Angle: 120°

Certification: UL&DLC

Operation temperature: -40°F (-40°C) - 104°F (40°C)

Package include:

1X 240W Linear High Bay Light

2X Hook

2X Mounting Clips

4X M4 Screws

4X Plastic Anchors

4FT Suspend Chain
