

Fixed Method by Magnetic Mount

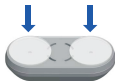

Notice: Please make sure the light is fully charged before first use. When charging - The red indicator light is always on. When fully charged - The green indicator light is always on

Installation of Magnetic Mount

1. Tear off the double-sided adhesive protective film

2. Attach to the back of the base

3. The base can be attached to the wall or other required surfaces (P.S The surface must be clean and free of dust)

4.Reinforcement method: the base can be rotated 90 degrees, and screws are installed through the holes (P.S. Avoid the aging of the double-sided tape or the weak adhesion of the wall causing the base to fall off)
