Upholstered bed

150*200

TIPS

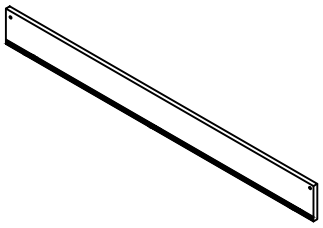

1.This product is divided into 2 parcels for delivery. They may not arrive at the same time. Please wait patiently.

2.Please read the instructions fully before assembly. These instructions include important information which could ensure correct assembly. We have been working on providing high quality products for you. However, in the rare instance that your product is defective,missing parts or there are some issues, please don't hesitate to contact our customer service to submit parts requirements, assembly suggestion,or warranty claims, and we will give the best solution as soon as possible. If necessary, we need you to provide some more clear pictures of the issue.

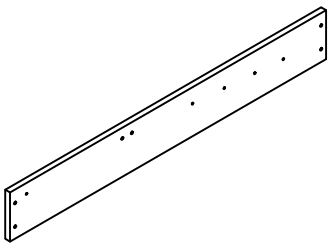

3.Insert the screws in holes and tighten the screws, but not too tight, 70%~80% is ok,

finally tighten all the screws. If some issues happened that some screws can not target to the hole or some parts are difficult to install, please adjust the tightness of the screws.

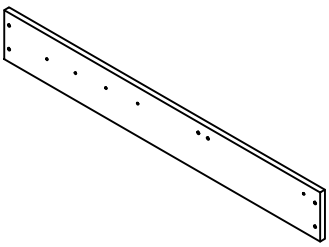

4.2 people are recommended to finish.

25

Light bar

Pull out
and unfold

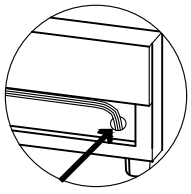

Light bar

The unfolded light strip has a light strip surface on one side and a magic tape on the other side

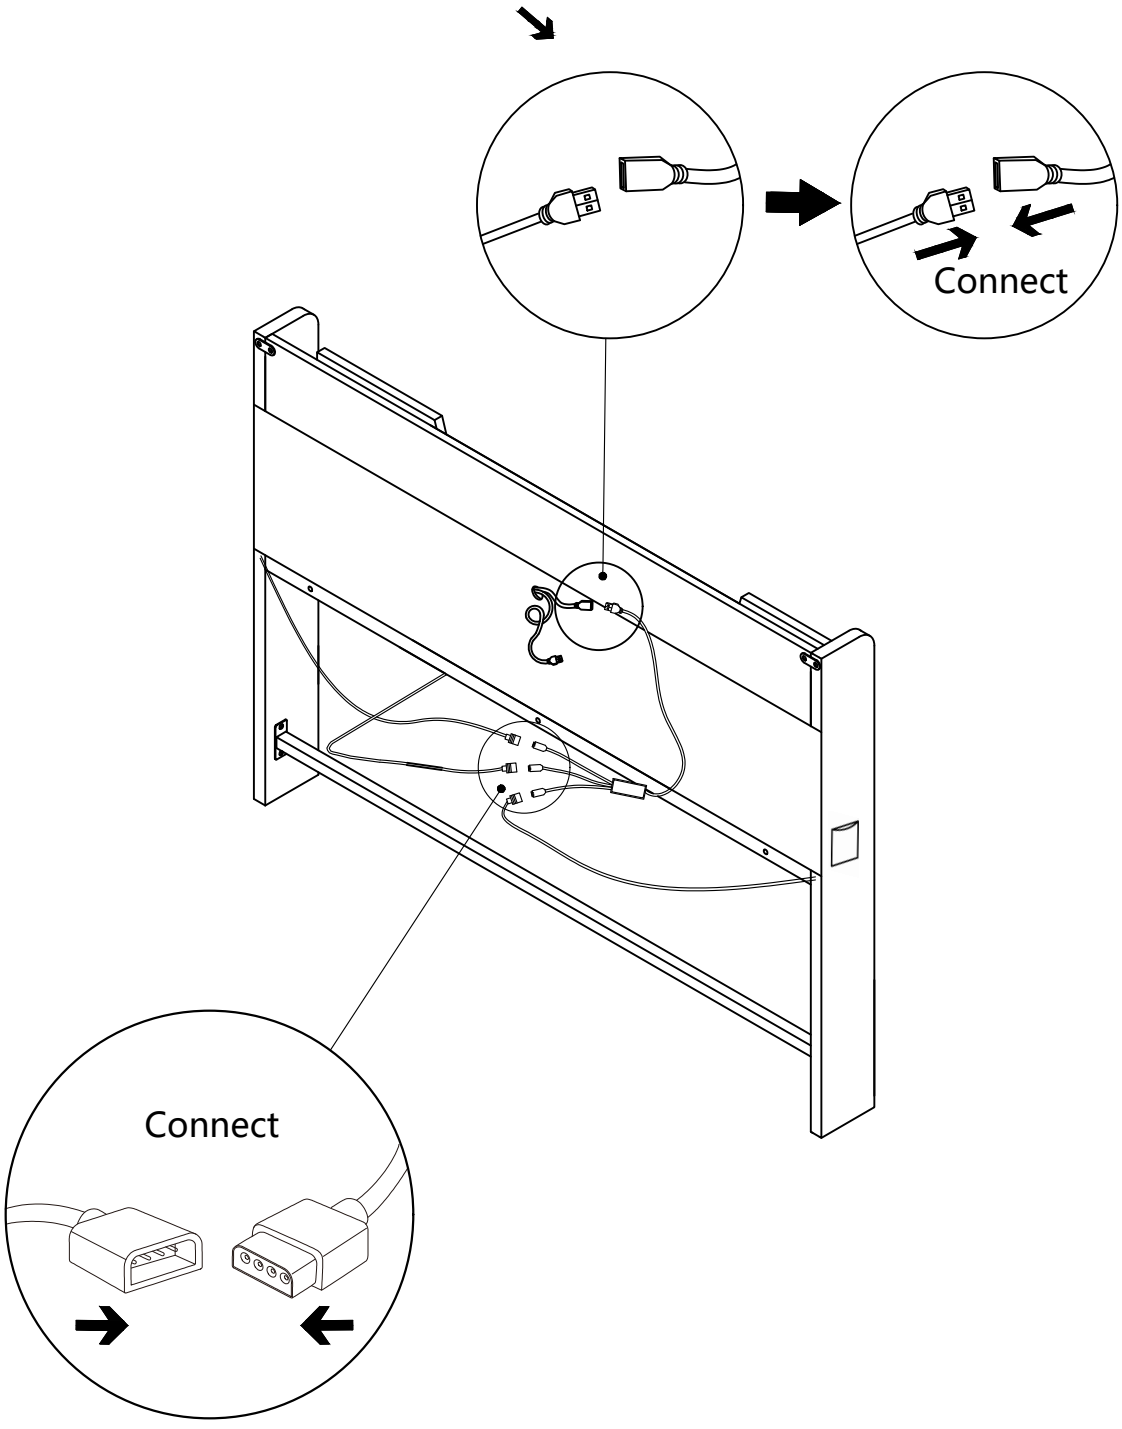

The LED strip passes through the threading hole at the bottom of the bed to the headboard.

26

There is a USB bus under the socket, connect the USB plug of the power cord to it.

- **KEEP** new and used batteries **OUT OF REACH of CHILDREN**
- **Seek immediate medical attention** if a battery is suspected to be swallowed or inserted inside any part of the body.

If a battery has been ingested, or there is a possibility one might have been ingested, please seek medical attention and inform the medical authorities that you suspect battery ingestion.

It's not always clear when a child has swallowed a button battery, as there are no specific symptoms. However, they might:

- cough, gag, or drool;
- seem to have a stomach bug or virus;
- vomit;
- complain of pain in their stomach, chest, or throat;
- appear tired or sluggish; and
- lose their appetite.

Since the signs aren't obvious, it's important to keep a close eye on loose, used, or spare button batteries in your home, as well as the products that contain them.
