

**Ovente Electric Kettle, Stainless Steel, 1.7L, 1100W, BPA-Free, Cordless, Auto Shut-Off and Boil-Dry Protection, Concealed Heating Element, Brushed Silver (KS27S)**

**\$29.99**

## Key Features

**BOILS IN A FLASH** – This Ovente electric kettle operates on 900–1100W (110-120V) of power, quickly bringing 1.7L of water to a rolling boil in minutes.

**100% CLEAN WATER** – This one is made of BPA-free materials, and its heating element is concealed and separate from the carafe. With this, you would be sure that there would be no BPA particles and lime scale deposits from your water.

**STYLISH PIECE FOR YOUR COUNTERTOP** – The long lines, the brushed stainless steel, the minimalist open-lid button, the soft-touch black handle—the whole package makes it the must-have kettle for to complement your modern kitchen!

**EXTRA SAFE** – This electric kettle features an auto shut-off and boil-dry protection: The kettle shuts off on its own when the pot has reached its boiling temperature and then turns off the heating element when there is no water in the kettle.
