PRODUCT STRUCTURE

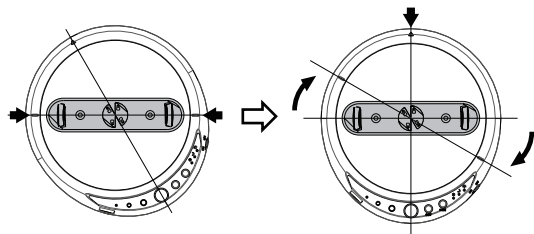

INSTALLATION METHOD

1. Mount the wall light hanging plate on the wall with the screws supplied.

2. Insert the recessed portion of the back of the wall light against the wall plate.

3.Align with the hole and rotate to fix in the direction of the arrow.

4.Press the switch button, choose your preferred mode and enjoy the beautiful light.

HOW TO USE?

1. Day Mode

- a. The wall light will turn on when motion is detected and remain bright for 20 seconds, then automatically switch off if no subsequent motion is detected. The product can be triggered 1000 times in fully charged state.

2. Night Mode

- a. When switch to the night mode, it will remain bright for 3 seconds, then turn off automatically, if motion is detected, the wall light will turn on again and keep bright for 20 seconds. Please note that in the night mode, the wall light won't light up during the day.

3. Always-On Mode

- a. Always-On mode has 5 brightness levels (by remote control), motion detection is off.

4. Charge

- a.The product arrived in an undercharged state, please fully charge it before first time use.
- b.Please use the provided charging cable for charging. We recommend a charging voltage 5V to avoid damaging the product.
- c.If the light flickers or motion detection is not responsive, please charge promptly. If the issue persists after fully charged, please contact us immediately.

HOW TO USE?

1. Please follow the user manual to install the wall light correctly to ensure it is stable and secure.
2. Regularly inspect and clean surface of the wall light to ensure good appearance and performance.
3. Avoid stacking flammable items around the luminaire when charging, in order to avoid fire risk.
4. Please do not look directly at the light source of the wall light, which may cause eye discomfort or injury.
