

LAMP SHADES

Easy to Assemble

1. Get all lamp shade components ready.

A Shade cloth

B Top frame

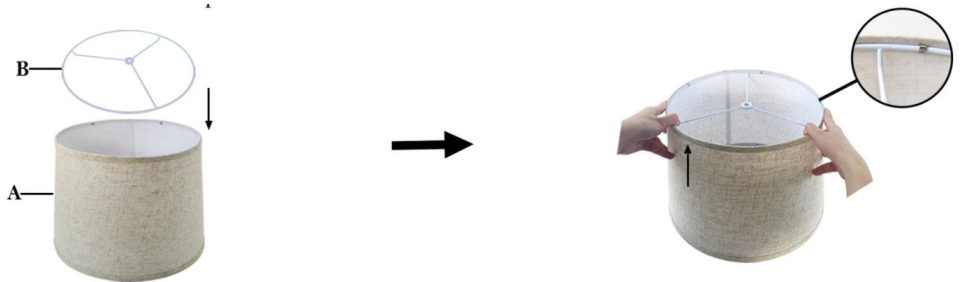

C Bottom frame

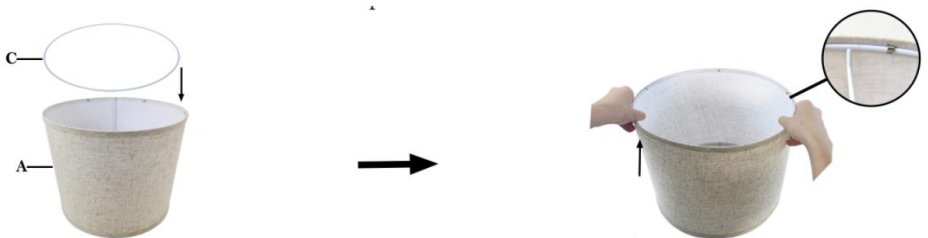

2. Attach the Velcro on each end of the Shade cloth A together.

3. Insert the Bottom frame B into Shade cloth A, lay it flat, and secure it using the metal clips at the bottom of Shade cloth A. The clips will hold the shade frame in place.

4. Insert the Top frame C into Shade cloth A, then clip it into the metal clips at the top of Shade cloth A. The metal clips secure the shade frame.

5. Peel off the Velcro, tighten the shade cloth, and reattach the Velcro securely. Press it firmly and lay the lamp shade on a flat surface, like a tabletop, to ensure it's even and properly fitted.
