MATERIALS:

- **OUTER COVER:** Knitted Poly-Cotton Blend.
- **COMFORT LAYER:** Cooling Gel-Infused Memory Foam.
- **SUPPORT LAYER:** Durable Individual Pocketed Coils.
- **BASE FOAM:** High-Density Foam.

DO NOT MACHINE WASH - The outer cover features integrated structure; machine washing severely damages its fire-resistant barrier.

DO NOT BLEACH - Harsh chemicals and bleach will severely degrade the specialized hybrid fabrics and foam layers.

DO NOT IRON - High heat from ironing will instantly melt the synthetic fibers and permanently damage the memory foam.

SPOT CLEAN ONLY - Use a damp cloth and a mild detergent to gently dab and target specific stains. Air dry completely.

ROTATE REGULARLY - Spin the mattress 180 degrees (head to foot) every 3 to 6 months to ensure even wear over time.
