CUSTOMER SERVICE

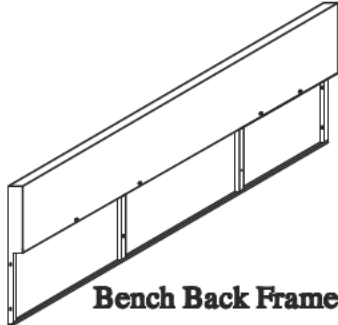

If you have a question about assembly, use or a possible missing part, please contact us and we will be glad to assist you.

- Use a sponge to wash with a mild solution of soap and water. Rinse with water and allow to dry completely before use.
- Cushion cover cleaning: Remove the cushions from the cushion covers and set the cushions aside. Mix about 1 tablespoon of mild laundry detergent or dish wash in about two cups of warm water and stir until frothy. Dampen a sponge in this solution. Using the dampened and soapy sponge, gently clean the cushion fabric. For particularly tough dirt stains, try to dislodge with the soft-bristle brush, lightly soak in the soap solution. After cleaning the cushion covers, let them hang-dry for 1 hour.
- Glass cleaning: Clean the glass with a mild glass cleaner solution.
- Cover the furniture when not in use.

- Regularly check all fastenings to make sure that they are properly tightened.
- Do not stand on the product or use it as a step ladder. Use proper supervision for children.
