Green Trace VI is a fine art print of a Convallaria Majalis Variegata leaf that evokes the charm of a vintage accademia gallery wall of botanical illustrations. The plant is native to Europe and Asia and is commonly known as the “variegated lily of the valley.” This print features a delicate, variegated leaf in hues of forest green accented by veins of olive green that offer a sense of depth and texture. The captivating colors and sophisticated form make this a desirable addition to the collections of botanical art aficionados.

An exquisite display of color and depth in a famous botanical form, Green Trace 6 is part of the carefully curated ART by TA Collection.
