

### Step 1

Open the Ottoman Storage and you will see legs inside the Ottoman.  
Remove the 4 Wooden Legs.

### Step 2

Place the Ottoman face down, as shown above.

Install the Leg(B) into the bottom of the Ottoman(A) by placing 1 (ONE) piece of Washer Ring(①) on the threaded stem.

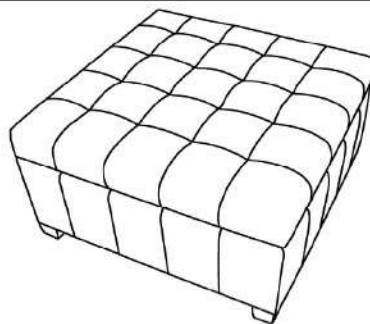

The use of Washer Rings improves tightness and security of leg after assembly.

Tighten by turning the leg clockwise.

Repeat the same step to install the three remaining legs.

**Note: The use of Washer Rings are OPTIONAL and is especially useful to help alleviate slight wobbleness. Some Legs may need more than one whilst some legs do not need any.**

### Step 3

Place the Ottoman right side up and it is ready to be used.

**Caution: This Ottoman only be used on a flat, level surface.**
