

## LED Acrylic Square Flushmount Fixtures with CCT selectable switch

series of LED square flushmount fixtures are designed to emulate the look and feel of traditional circline fluorescent tube flushmount fixtures, but operate at a significantly lower wattage. A CCT selection switch allows the installer to switch between 3000K, 4000K, or 5000K color temperatures. Fixtures are available in multiple diameter options in a square profile, making the choice easy for any type of application. Installation is quick and simple when mounting into standard ceiling junction boxes, and may be installed on circuits with standard wall dimmers. Constructed with a durable steel housing body and LED lifetime rating of at least 50,000 hours, this rugged flushmount is designed for many years of reliable operation.

### Features

- Tool-less diffuser attachment
- Minimalistic and efficient design
- Mercury-free construction
- Suitable for Damp Location use
- Easy and secure installation
- TRIAC Dimmable to 10% output

### Applications

- Multi-family and Apartments
- Overhead & Hallway lighting
- Ambient room lighting
- General lighting

### Specification
