

# ASSEMBLY INSTRUCTIONS

## 3

### Connecting the LP Gas Tank

Check to make sure there is no debris in the head of the LP gas tank or in the head of the regulator valve. Make sure you check the burner and burner ports as well.

Connect gas line to tank by turning knob clockwise. Hand tighten only.

### Disconnecting the LP Gas Tank

Make sure the valve on the LP gas tank is OFF.

Disconnect by turning the knob counter clockwise until it is detached from the valve.

A statement indicating that other cylinders may be acceptable for use with the appliance provided they are compatible with the appliance retention means and accompanied by illustration(s) depicting the cylinder mounted to the appliance utilizing the cylinder retention means and the point of contact between the cylinder and the retention means.

Provided with a listed overfilling prevention device; and provided with a cylinder connection device compatible with the connection for the appliance.
