

Assembly Instructions - Please keep for future reference

Important – Please read these instructions fully before starting assembly

Installation Notes

Dear Customer,

1. Please check the product for any damage upon receipt before installation. If there are any quality issues, please contact us immediately.
2. This product requires self-assembly. If you have any questions during the assembly process, please refer to the instructional video or contact us promptly.
3. After installing parts #10 and #8, slight looseness or gaps may occur. Please do not over-tighten the screws, as this is normal and will improve once the overall assembly is complete.
4. Please pay attention to the installation direction of part #10. Incorrect installation may cause damage to the panels.
5. During assembly, do not twist or rotate parts #10 and #8, as this may cause damage to the panels.
6. Avoid collisions or twisting of the product structure during installation, as this may cause damage to the product.

Using Camlocks

Step 1

Connect the male camlock as directed in the assembly instructions using a screwdriver.

1

DO NOT OVER TIGHTEN.
NE PAS SERRER EXCESSIVEMENT.

Step 2

Push the male camlock into the entry hole.

2

Step 3

Insert the female camlock as shown in the instruction.

Note: ensure that the arrow on the top of the camlock points towards the entry hole for the male camlock.

3

Step 4

Turn the female camlock clockwise with a screwdriver.

You should feel a click when the camlock is locked in place.

The joint is now secure.

4

Make sure to put one carpet or some thicker film under the cabinet body during the installation in order to avoid scratch or damage to the parts.
