1 Make sure the wall, on which you will hang the map; is clean, dry, smooth, and ready for installation of the map. (Some wallpapers may not be appropriate for sticky tape due to slippery surface coating. You can try before attaching all pieces)

2 Attach the left corner stencil on the top left point with any tape. Then measure the distance between stencils according to your map size (2XL, XL, L, M) and attach the right corner stencil to the top right corner.

3 Lay out the main pieces on the floor facing down. Stick the pieces with attached double-sided sticky tape. Be sure to attach enough sticky tape for each piece to ensure longevity.

4 Start sticking the pieces to the wall starting with the outer pieces (Alaska and Far East Russia). Attach the rest of the pieces as shown on the template.

5 Lastly, separate islands and map decorations from the template and attach them to the wall according to the template on the back page. Don't forget to take the corner stencils off the wall when finished.

How can I hang the map?

Do not worry, it is easy and joyful.

Find your guide for joy, inside!..
