MONO CHAIR

DESIGNED BY KASPER NYMAN

ENGLISH

Mono is the result of untraditional thinking. The series is characterised by the challenging design combined with simple and clean aesthetics. Designed from the idea of folding wood like a piece of paper into a cone shape, which challenges traditional thinking and production. The oak veneer construction gives Mono a light and refined expression rooted in the Scandinavian design tradition. The chair has gotten its name from production as the entire range of seats used for bar, dining and lounge chairs are all produced with the use of the same tool.

DANISH

Mono er resultatet af en utraditionel tankegang. Serien er karakteriseret ved det udfordrende design kombineret med simple og rene linjer. Stolens sæde er inspireret af ideen om at folde træ, som var det et stykke papir, hvilket giver designet en distinkt formgivning. Med den naturlige egetræsfinér har Mono et let og elegant udtryk, der er dybt forankret i den skandinaviske designtradition.
