Product Installation Manual

Installation Instructions

1. Before installation, count the accessories of the storage cabinet and sort them properly!
2. Refer to the accessory list to check the quantity of accessories. If there are any missing items, please contact us promptly for a replacement. Be sure to ensure that all accessories are complete before starting the installation step by step, to avoid the situation of dismantling halfway through the installation with great effort!
3. The buckle and slot are precisely matched, and a little force is applied during installation to make the storage cabinet seamlessly sealed and more stable.

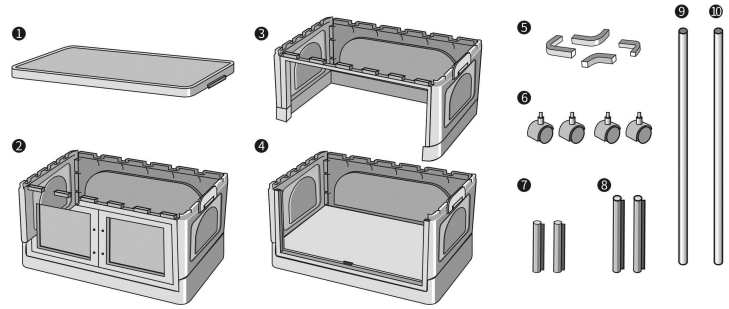

Matters Needing Attention

1. The product is made of PP raw material and is prone to deformation when exposed to high temperatures. Please do not place it near heating elements such as furnaces;
2. For daily cleaning, do not use brushes, calcium carbonate powder, or other items. Instead, use a sponge dipped in neutral detergent to wipe, and then dry with a soft cloth;
3. The product has just been taken indoors from an outdoor temperature below 0 ℃. Please let it sit for a period of time to ensure that the product temperature is above 0 ℃ before starting installation.

Product components

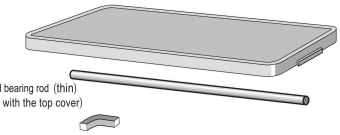

1 Cover　2 Small Door Box　3 Open The Upper Box Of The Large Door　4 Lower Level Box With Large Opening Door　5 L-shaped Pressure Angle

6 pulley　7 Small handle　8 Big handle　9 Hanging Clothes Pole (thick)　10 Load bearing rod (thin)
