

ASSEMBLY AND INSTALLATION INSTRUCTIONS

WARNING: TO AVOID RISK OF ELECTRICAL SHOCK, BE SURE TO SHUT OFF POWER BEFORE INSTALLING OR SERVICING THIS FIXTURE.

Before You Begin:

- Ensure power is turned off at the circuit breaker before installation.
- Read all instructions carefully.
- Installation should be performed by a qualified electrician if you are unfamiliar with wiring.

Step-by-Step Installation:

- Step 1: Loosen the housing screw to adjust the suspension cord to the desired length; slide the 8-shape fasteners adjustment to the bottom, and retighten the screw to secure the cord.
- Step 2: Secure the mounting plate to the junction box using the provided mounting screws.
- Step 3: Connect the fixture wires to the supply wires using wire connectors.
- Note: Connect the black (hot) wire to the black wire, the white (neutral) wire to the white wire, and the ground wire to the grounding terminal.
- Ensure no exposed conductors remain outside wire connectors or outside the junction box.
- Step 4: Secure the canopy to the mounting plate with the decorative nuts.
- Step 5: Place the glass shade over the socket, and thread the outer ring onto the socket to lock shade in place. (Gently adjust glass shade until the socket is centered within it, then tighten the outer ring.)
- Step 6: Secure the metal stem to the fixture curved frame using the supplied threaded nipple.
- Step 7: Insert the bulb into the E26 socket. (Bulb Not Included)
- Step 8: Turn on the power to check if the bulb works properly.
- Installation Complete.

Safety Instructions:

To avoid fire, shock, and serious personal injury, follow all instructions carefully.

1. Do not install or use the light fixture if any part is missing or damaged.
2. To avoid possible electrical shock be sure electricity is turned off at the main fuse or circuit breaker box before wiring.
3. Make certain no bare wires are exposed outside the wire connectors.
4. All wiring must conform to national and local electrical codes.
5. Follow the recommended instructions for the proper method of wiring your new light fixture. If you feel you do not have enough electrical wiring knowledge or experience, have your light fixture installed by a licensed electrician. Any electrical work not described in this manual should be performed by a licensed electrician.
