# Assembly Steps

## Overview:

This Coffee Table has multiple parts and may require up to 30 minutes to assemble. To give you an overview of the Coffee Table parts, the above picture is to help you put the various parts into perspective. Please read through the instructions below to familiarise yourself with the parts and steps before assembly.

## Step 1

Carefully place the Leg Frame(C) and Support Rail (B) on a clean, non-marring surface as picture, align the mounting positions on Leg Frame(C) with the mounting positions on Support Rail (B), then attach them together by using Washers(③) and Short Bolts (①) with Allen Key (④).

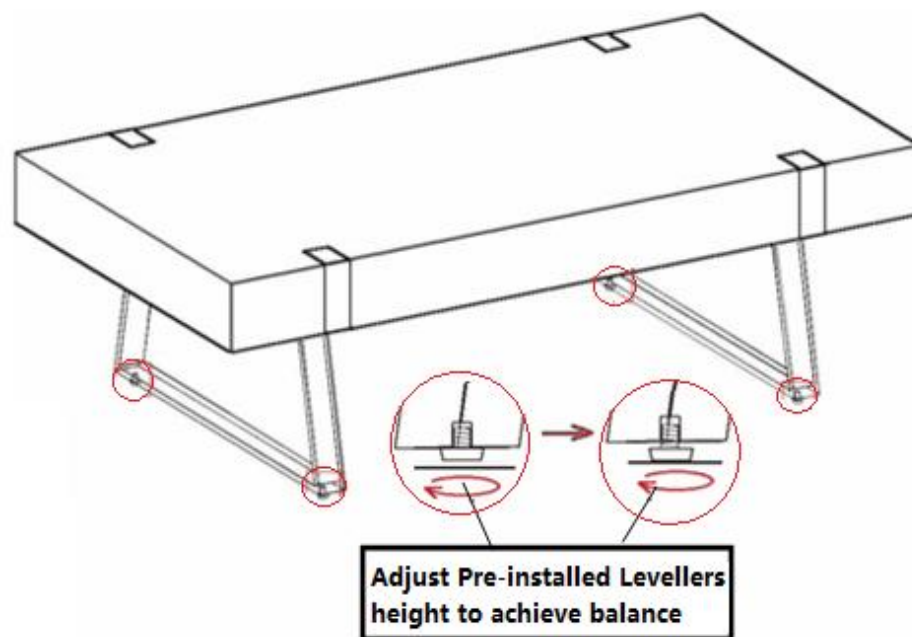

## Step 2

Carefully place the Table Top (A) facedown on a clean, non-marring surface with assistant from second adult. Align the mounting positions on assembled Leg Frame(C) and Support Rail (B) with the mounting positions on Table Top (A), then attach them together by using Washers(③) and Long Bolts (②) with Allen Key (④).

**Tightening all Bolts(①&② )completely in a sequential manner.**

## Step 3

Stand the Table up.

Your Table is ready for use.

If the Table wobbles adjust the Pre-installed Levellers at the bottom of the Legs until the Table is level.

**This Table can only be used on a flat, level surface.**

### Questions & Answers about Proposition 65

#### • What is Proposition 65?

Proposition 65 requires businesses to provide warnings to Californians about significant exposures to chemicals that cause cancer, birth defects or other reproductive harm. These chemicals can be in the products that Californians purchase, in their homes or workplaces, or that are released into the environment. By requiring that this information be provided, Proposition 65 enables Californians to make informed decisions about their exposures to these chemicals.

Proposition 65 also prohibits California businesses from knowingly discharging significant amounts of listed chemicals into sources of drinking water.

Proposition 65 requires California to publish a list of chemicals known to cause cancer, birth defects or other reproductive harm. This list, which must be updated at least once a year, has grown to include approximately 900 chemicals since it was first published in 1987.

#### • What types of chemicals are on the Proposition 65 list?

The list contains a wide range of naturally occurring and synthetic chemicals that include additives or ingredients in pesticides, common household products, food, drugs, dyes, or solvents. Listed chemicals may also be used in manufacturing and construction, or they may be byproducts of chemical processes, such as motor vehicle exhaust.

#### • What does a warning mean?

If a warning is placed on a product label or posted or distributed at a workplace, a business, or in rental housing, the business issuing the warning is aware or believes that it is exposing individuals to one or more listed chemicals.

By law, a warning must be given for listed chemicals unless the exposure is low enough to pose no significant risk of cancer or is significantly below levels observed to cause birth defects or other reproductive harm.
