# ASSEMBLY INSTRUCTIONS

## step 1

Take the cushion out of the compression bag and allow it to recover for a period of time, it takes about 24 hours for the cushion to fully recover, and you can slap the cushion to speed up its recovery.

## step 2

Place the bottom of the sofa frame upward on a clean plane, align the screw of the wooden foot with the screw hole reserved at the bottom of the sofa and rotate clockwise to install the wooden foot firmly.

## step3

One hook in each seat spare parts bag

If you are using a ottoman, this hook is not useful.

If you need to use in combination with other sofa's part together, please place the bottom of the sofa parts and the ottoman upward on a clean plane, align the two parts and try to keep it close, use the metal hook in the packing, seize the combined sofa 20cm away from the front and back of the sofa, and then tighten the screw. Turn the assembled sofa tightly together, face up.

Since there is a sponge on the outside of the wooden frame of the sofa, the two parts need to be squeezed tightly when fixed with the buckle.

## step4

Remove the Velcro covering on the bottom of the seat cushion, place the seat cushion on the sofa, align the edge of the cushion with the edge of the sofa and arrange it to make it beautiful.
