

## MEAT MIXER

- 20 lb. Hopper capacity
- Stainless Steel Body and removable Mixing Blades
- Die cast Crank with Poly Handle
- Brass Bushings for Blade Shaft
- Disassembles for easy clean up

The CHARD 20 lb. Meat Mixer is an essential tool for mixing multiple pound batches of sausage, jerky or other seasoned ground meat. The stainless-steel hopper has a 20-lb. capacity and the mixing blades are designed to fold the mix into itself which ensures that the seasoning is blended thoroughly and evenly for a consistent taste. The acrylic hopper cover has a convenient slot that allows the user to safely add spices while mixing. The long-lasting poly handle won't split or splinter like wood and is removable for convenient storage. Non-skid rubber foot pads keep the stainless-steel hopper in place and provide a stable surface while mixing. Mixer disassembles for quick and easy clean up.
