

## Welcome Home Guide

Get the most out of your new bean bag with these helpful tips and tricks.

### Delivery information

If your bean bag has arrived partially filled, we've included a separate bag of beans and assembly instructions for you to completely fill your seat. Your order may arrive in multiple boxes, which our delivery partners may deliver separately on different days.

### New product smell

You might notice a slight scent when your new bean bag arrives. This is normal and fades within 5 days. Airing it out in a cool, well-ventilated space can speed up the process.

### Creased fabric

Regular fluffing and shaking will help smooth out creases in your bean bag within a week. Keeping it in a well-ventilated room can also speed up the process.

## Here's how to keep your bean bag happy:

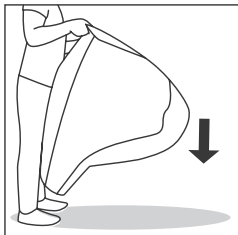

- **Cool spot:** Keep your bean bag away from heat sources like heaters and underfloor heating.
- **Gentle care:** Spot clean spills with a damp cloth and mild soap. Do not bleach, iron, or machine wash.
- **Indoor products:** Indoor bean bags enjoy some sunshine, but avoid it for extended periods to keep your colour.
- **Outdoor products:** Outdoor bean bags can **handle light rain**, but store beanbags **dry for heavy rain/dampness**

### Extra Fill

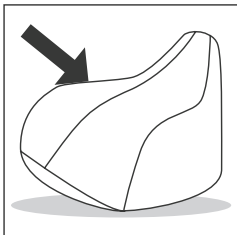

We aim for comfort! Your bean bag includes optimum filling, but if you need a little extra, contact the customer service team of the retailer you purchased it from. They'll be happy to help and advise on refilling options.

## FLUFF IT UP GUIDE

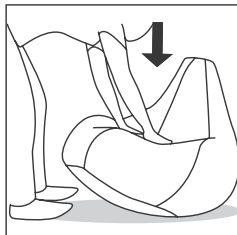

Bean bags can flatten over time, but no worries! Follow these 3 easy steps to fluff it back up.

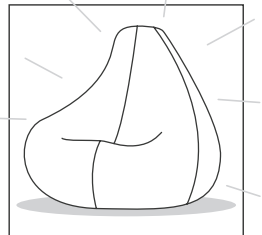

**1. Flip & Shake:** Turn the bean bag upside down and shake the beans towards the top.

**2. Stand Up:** Flip it back over and place it on the floor.

**3. Make a Dip:** Press a hand in the seat to spread the beans evenly.

**4. Comfy Time:** Enjoy your perfectly plump bean bag.
