Interior Finishes

Translucents

Our translucent finishes show off the character and texture of the metal beneath. Our finishing process utilizes the methods that will bring out the beauty of the materials. Powder coating is more resistant to impact, moisture, chemicals, and UV light than liquid paints. The eco-benefits of powder coating include low to no VOCs, the capability to recapture and reuse overspray and the ability to return exhaust.

:: Bronze -05

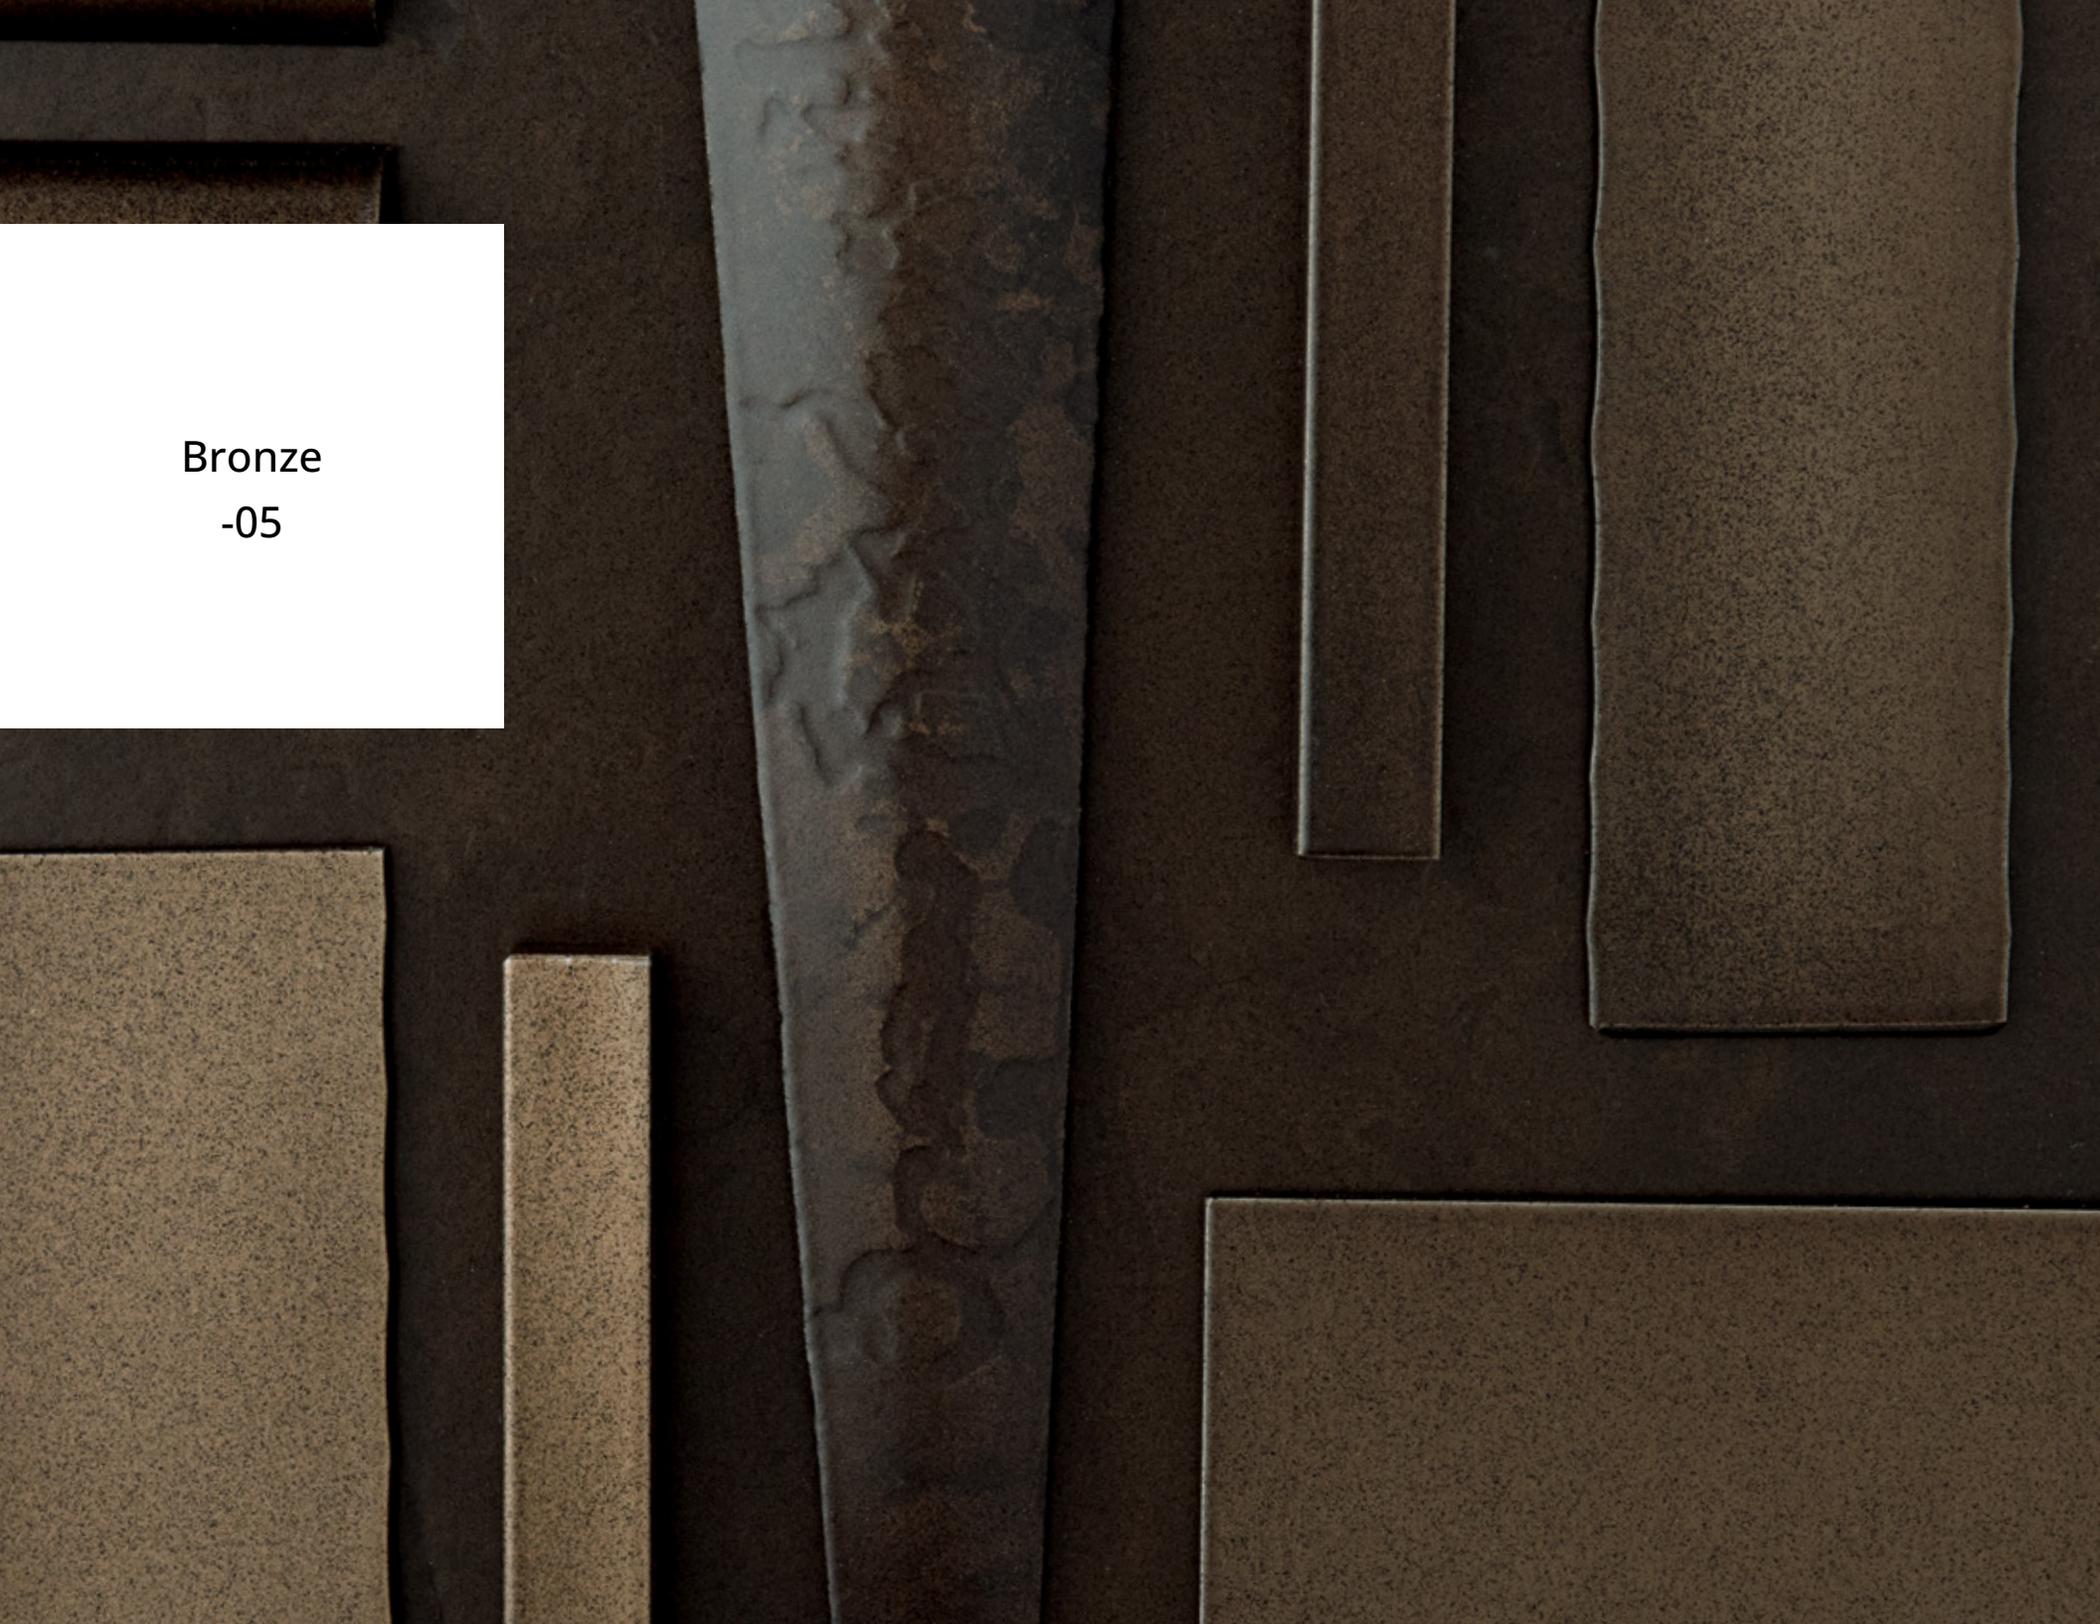

:: Dark Smoke -07

A NOTE ABOUT OUR TRANSLUCENT FINISHES —

Variations in finish appearances are a normal and desired result of the process, rendering each piece an individual and unique work of art. Shown here in Dark Smoke (-07) are examples of the different textures and patterns seen through our translucent finishes.

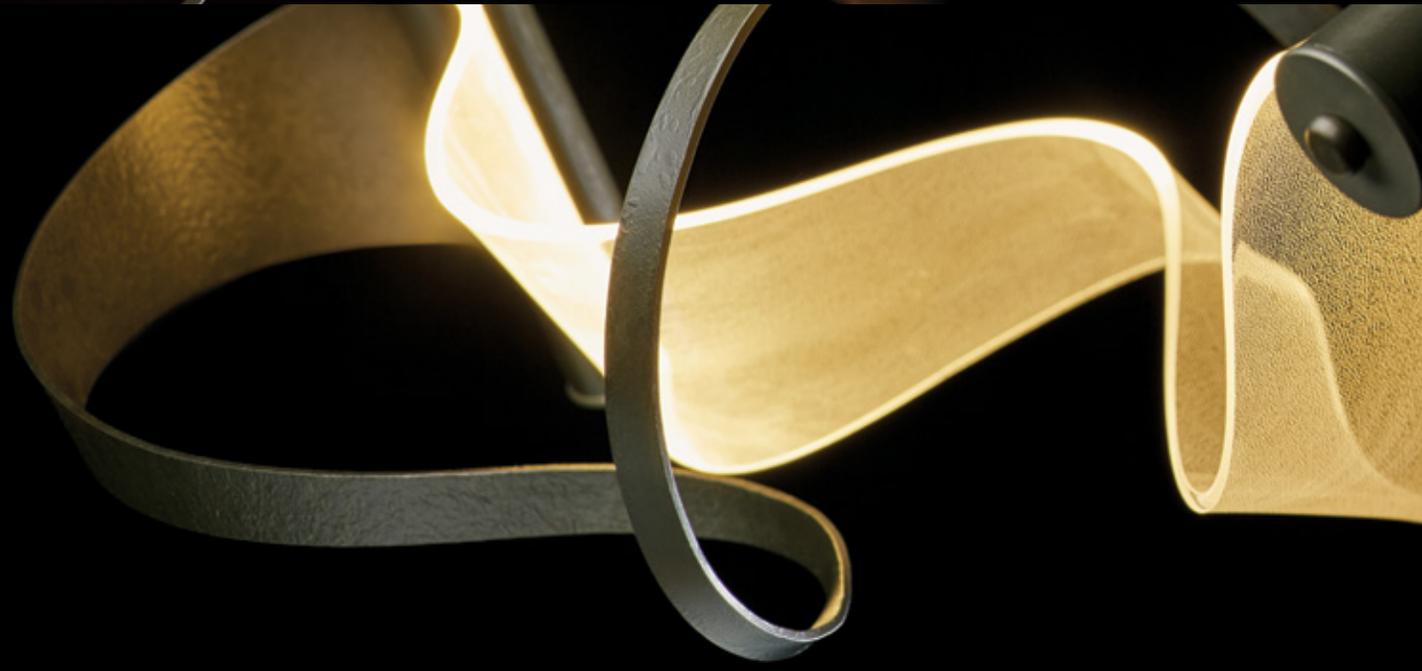

Bronze

Vintage Platinum
-82

The image displays a variety of gold-colored paper and cardstock samples. The background is a textured, embossed gold paper. Overlaid on this are several rectangular pieces of different gold shades and finishes, including smooth, matte, and slightly glossy textures. A white rectangular box is positioned on the left side, containing the text 'Soft Gold -84'.

Custom Finishes

Have a design challenge? Let us help you solve it. Looking for a custom finish color? Talk with us.

Our in-house customs team can work with you to achieve your goals. If you love a fixture you see, but need a specific finish color for your palette, just use the RAL color chart, and we can create lighting fixtures to match your selected RAL color.

RAL 5003 Dark Sapphire Blue
