Maintenance and Cleaning Methods

Maintenance and Cleaning Instructions
Regular Vacuuming and Stain Removal
Use the soft brush attachment of a vacuum cleaner to regularly clean linen sofas and remove dust, hair and debris. If liquid spills occur, immediately blot the stain with a clean dry towel instead of rubbing back and forth. This prevents stains from spreading and fabric pilling, keeping the linen texture neat.

Avoid Harsh Chemicals
Do not use bleach, strong alkaline detergents or abrasive cleaners on linen fabric, as these products will cause fading and damage textile fibers. Only clean with mild neutral detergent diluted in warm water. Always test any new cleaning product on a small hidden area first before full use.

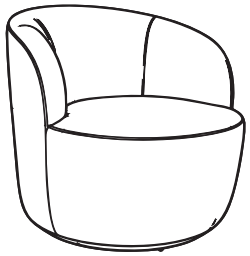

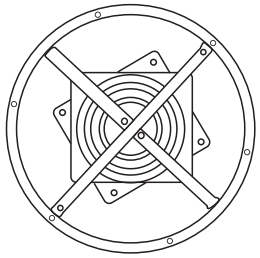

Light and Heat Protection
Place the linen sofa away from direct sunlight and heat sources to prevent uneven discoloration and brittle fibers. Draw curtains or blinds during intense sunlight hours to block strong light. Do not place hot items directly on the fabric surface.

Careful Daily Use
Handle the sofa gently. Keep sharp accessories, rough fabrics and pet claws away to avoid snags and pulled threads. Remind family and guests to be cautious to prevent accidental snags and stains. Trim loose surface threads with small scissors; do not pull them directly.

Wrinkle Reduction & Softening (Optional)
Linen naturally features subtle wrinkles and frequent ironing is unnecessary. Mist a small amount of water evenly over the fabric and let it air dry to smooth creases. You may also lightly spray diluted fabric softener occasionally to reduce static and maintain softness. Always follow the product instructions, apply a light mist only, and avoid soaking large areas of the fabric.
