

Kegco Vacuum Insulated Beer Cup

Enjoy the refreshing taste of all of your favorite beer, sodas, and other beverages in this Kegco 16 oz. Stainless Steel Vacuum Insulated Beer Cup! Made from premium quality food grade stainless steel, it boasts a double wall design that acts as a barrier to heat transfer, so outside temperatures will not keep your beverages from remaining frosty cold. This double wall mug design also prevents condensation from forming on the outside of your cup, so you won't have to worry about leaving wet rings on your coffee table. You can even drink piping hot coffee from these insulated cups without worrying about feeling the heat on your hand! These BPA free mugs are highly resistant to absorbing odors, tastes, and bacteria, so you'll be enjoying delicious beverages for years to come!
