

## Indoor Installation Of The Pet Fence (16 PIECES) DISPLAY OF PARTS

### SAFETY AND COMPLIANCE

• Never use accessories that are not recommended by the manufacturer. They could pose a safety risk to the user and might damage the product. Only use original parts and accessories.

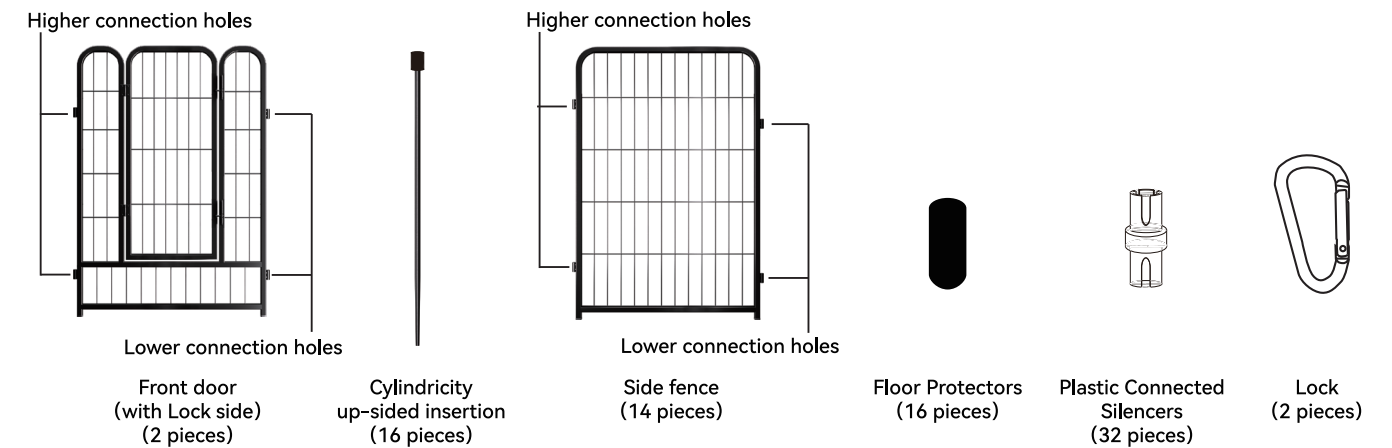

- DO NOT leave your pets unattended.
- Keep all small parts away from pets and children.
- Do not alter this product.
- Check the product regularly for damage. Replace if damaged.

### WARNING

- Ensure the pet pen is properly assembled and all door latches are secure before leaving your pet in the pen.
- To prevent choking and other serious injuries, always remove any collars, tags, or leashes from your pet before leaving the pet in the pen.
- This product is not suitable for pets whose heads are smaller than the gap between the grids of the panels.
- This product is intended only for pets, Not intended for use with children. Children should not be allowed to play in the pet pen.

### CAUTION

- This product cannot guarantee full containment and restraint in every circumstance.
- This product shall not be used to restrain aggressive dogs.
- Be careful when using on easily-damaged floors. Moving the pen too roughly could create scratches on the floor.
- Please dispose of product and packaging materials according to local regulations.
- No liability will be accepted for injury, accident, or damage resulting from improper use or non-compliance with this manual.
- When installing, ensure that the door lock on the front door faces outward.
- Ensure that when installing the side fence, the side with the raised welded wire mesh faces outward

### INSTALLATION STEPS

- 01 Make sure the door's lock is outward for easily opening. Connect the front door with the side fence. Make sure the connection holes of two playpens are staggered each other.
- 02 Please install the two "plastic connected silencers" between the adjacent holes to reduce friction and noise.
- 03 Insert the cylindricity up-sided stick into the holes of the two connected pieces. Please install the "floor protectors" to the end of "cylindricity up-sided insertion" when Indoor Use.
- 04 Same as step 3. Insert the cylindricity up-sided insertion piece into the rest. Connect the front and end together.
- 05 Last piece connects with the start, until all 16 pieces are installed.
- 06 If necessary, attach the lock to the door latch to prevent pets from escaping.
