IMPORTANT SAFELY INFORMATION

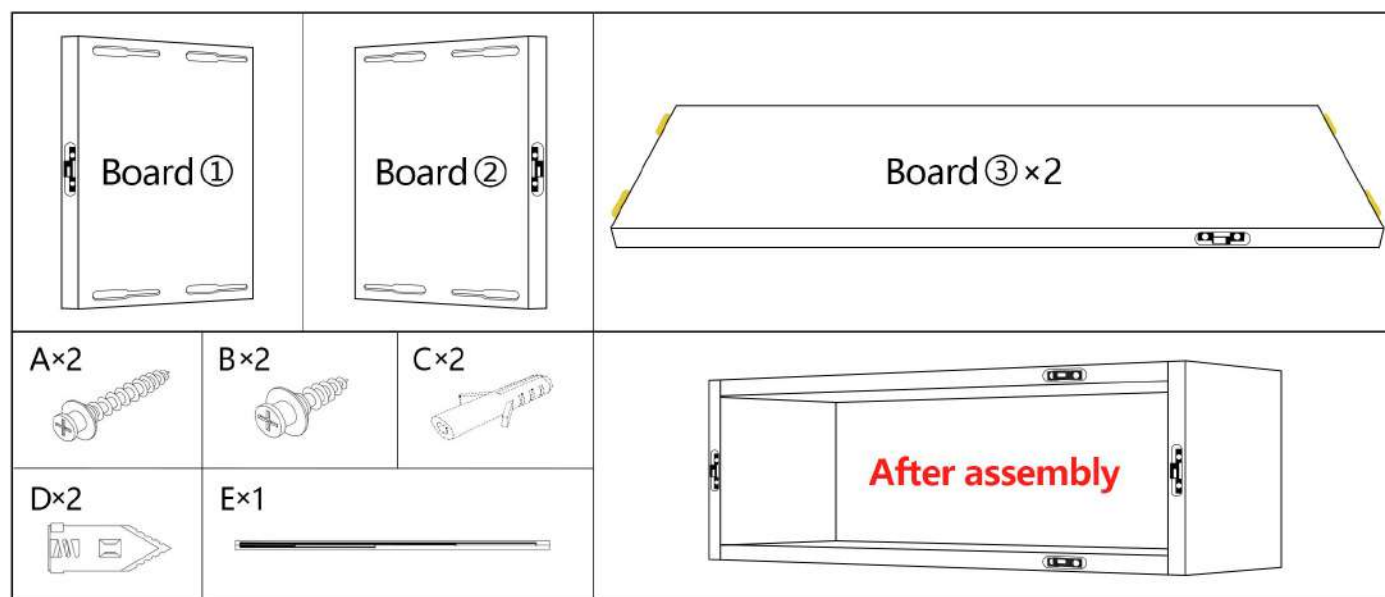

- Check package contents against supplied parts and hardware list to ensure all parts were received in good condition. Do not use damaged or defective hardware. If you require replacement parts, please get in touch with Kaboon customer service.
- Carefully read all instructions before attempting installation. Please contact Kaboon customer service if you have any concerns or questions.

TOOLS NEEDED (NOT INCLUDED)

SUPPLIED PARTS AND HARDWARE

All the quantities shown below are for one cube shelf.
If you ordered the set 2 version, you should get 2 times the parts listed below except for the paper tape (E)(only one).

ATTENTION

Before installation, please identify your wall type.

- ✓ For concrete or brick wall installation, follow STEP 2.
- ✓ For wood wall installation, follow STEP 3.
- ✓ For drywall/plaster, follow STEP 4.

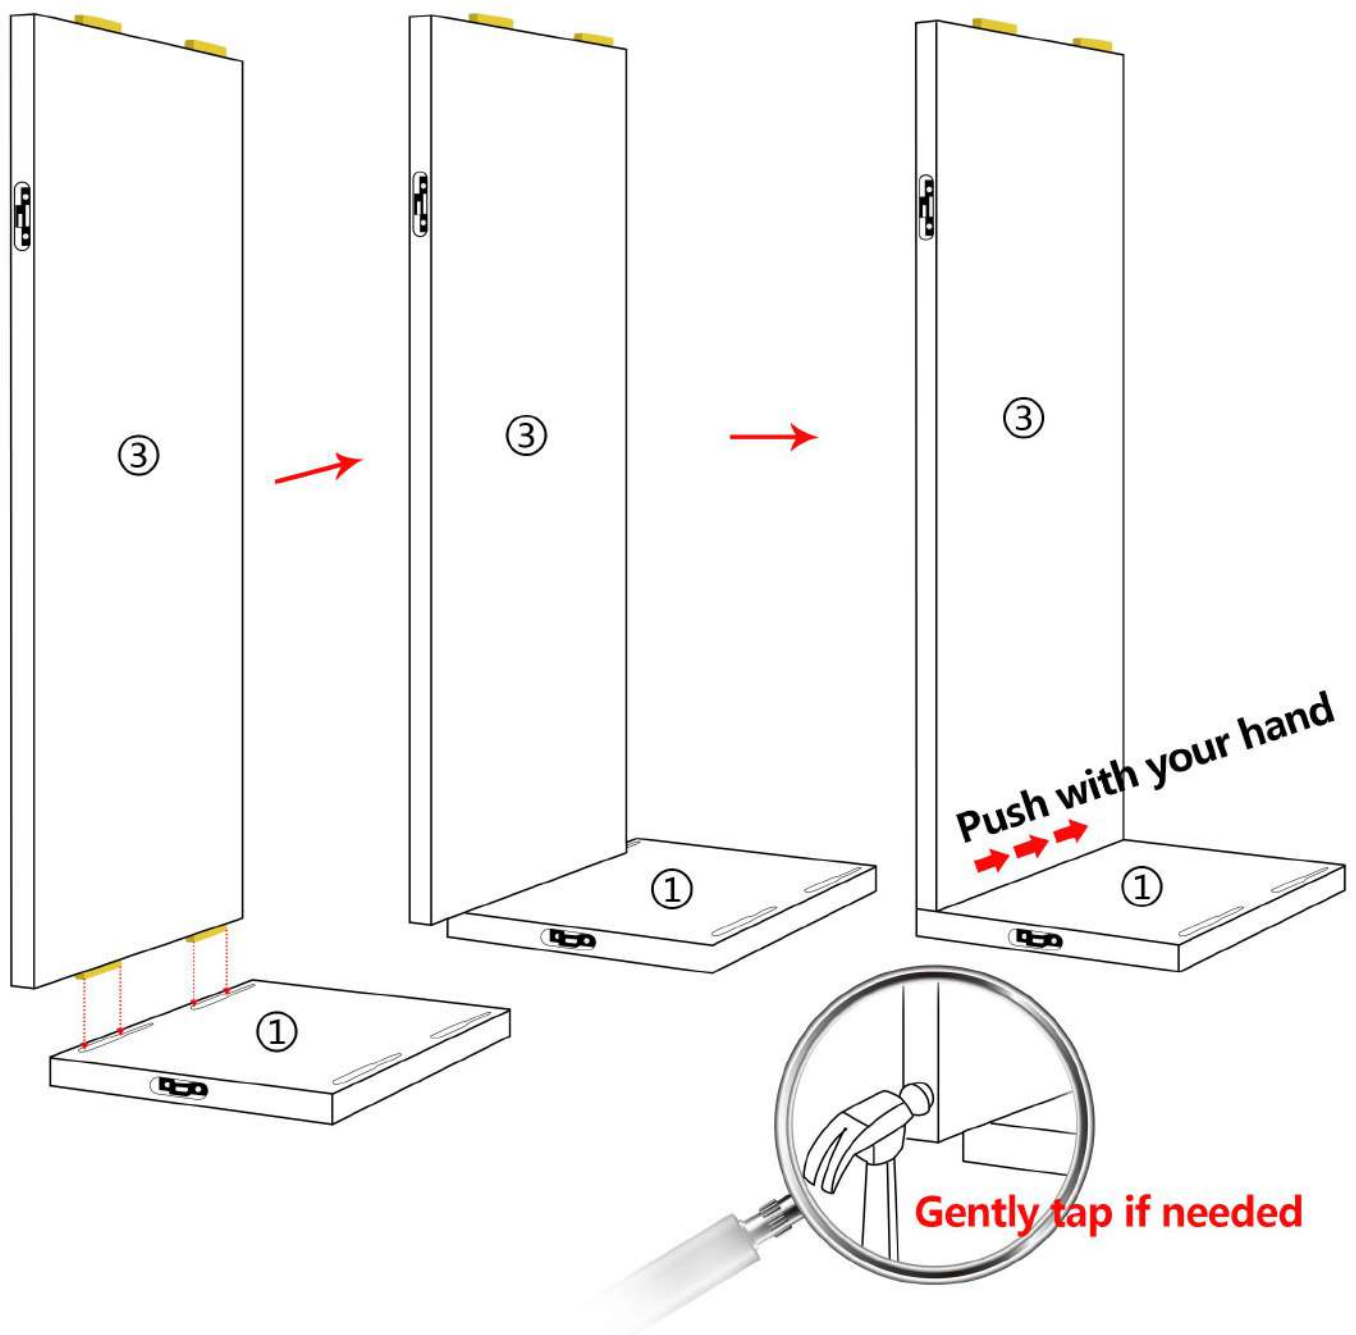

STEP 1

Parts: Board①×1, Board②×1, Board③×2

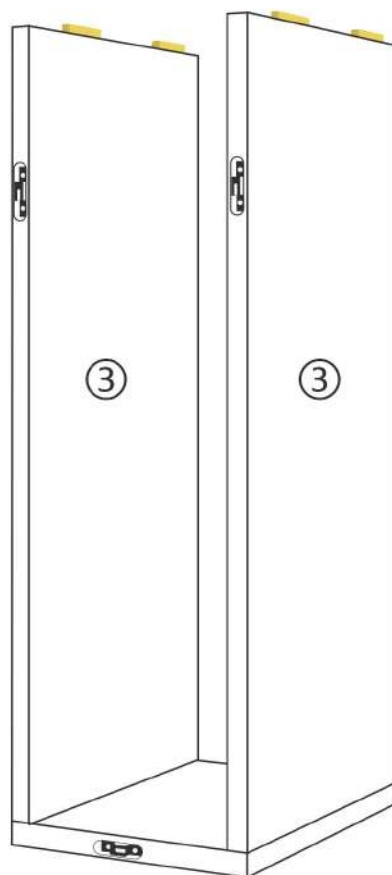

Tool: Hammer

1.1 Put one board ① down and take one board ③.

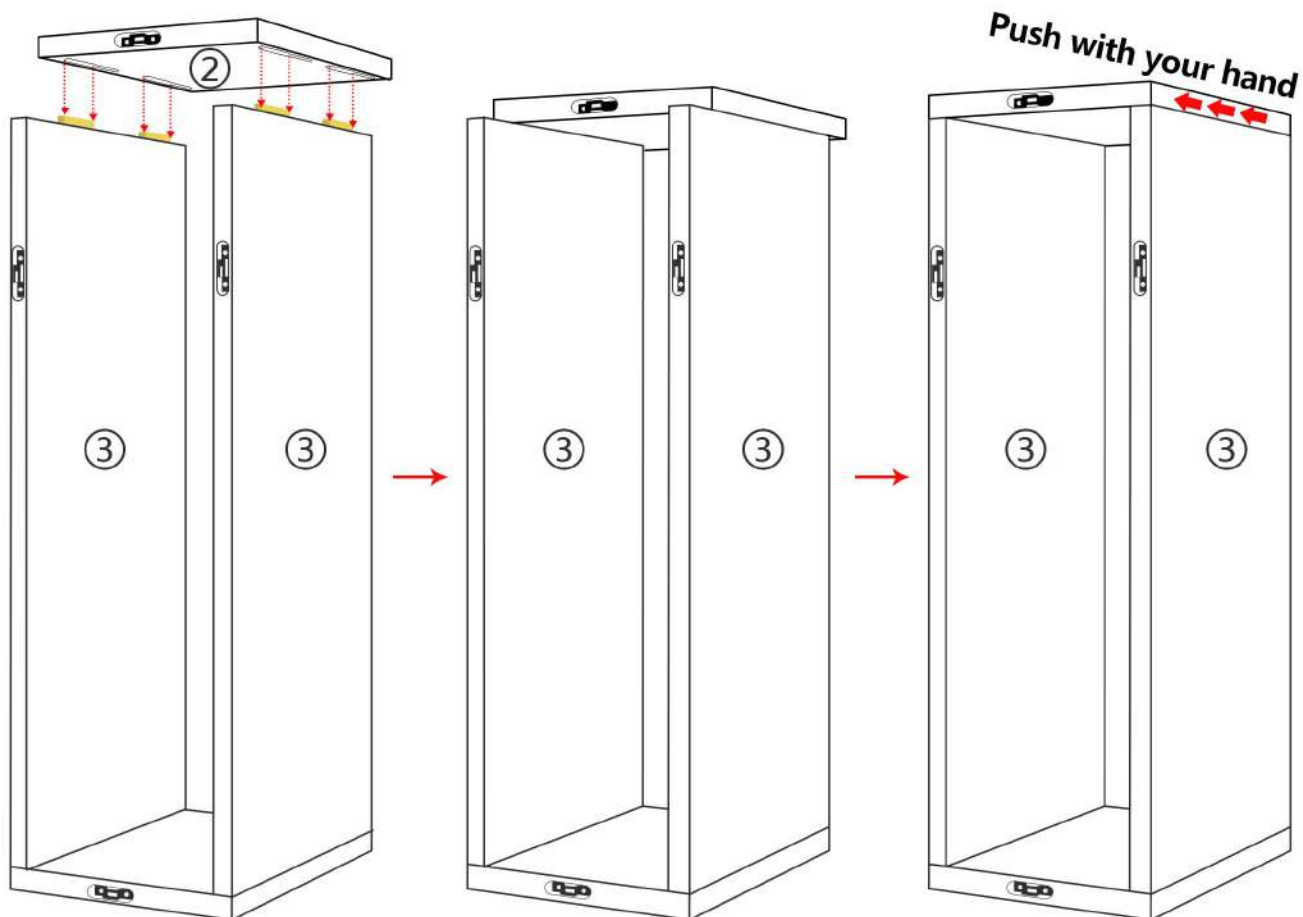

Let the yellow connections on board ③ slide from the big grooves to the small grooves so that the yellow connections get stuck. If sliding becomes difficult, **gently tap** board ③ with a hammer as needed, but AVOID applying excessive force.

1.2 Repeat the above steps to install the other board ③.

1.3 Put one board ② on the top and slide it until it is flush with board ③.

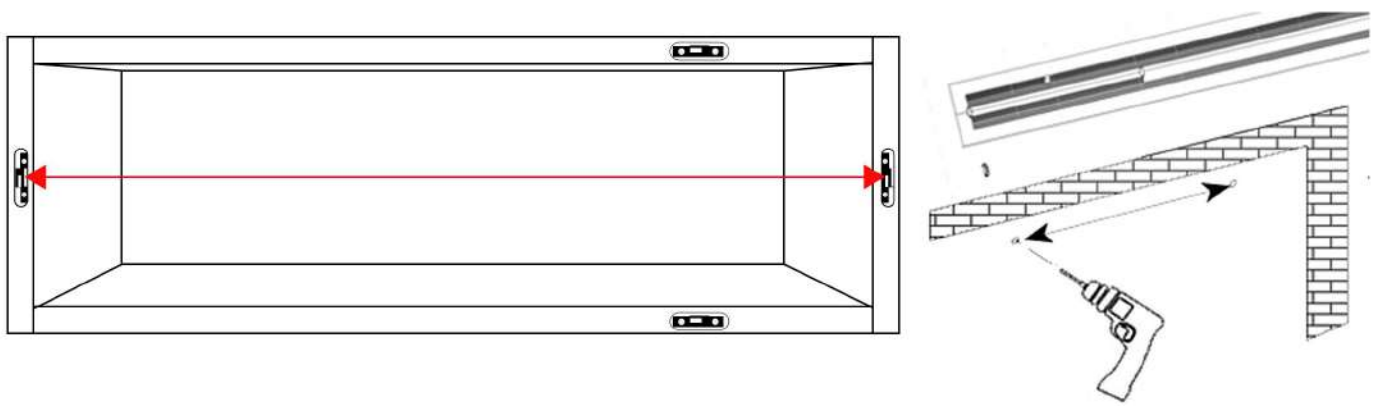

STEP 2

For concrete or brick wall installation

Parts: A×2, C×2, E×1

Tools: Paper tape, pencil, power drill with a concrete drill, hammer and phillips head screwdriver

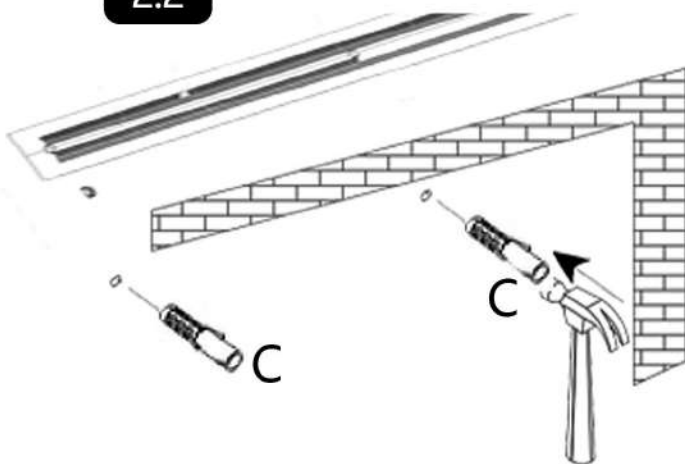

2.1 Identify two points on the paper tape (E) corresponding to the shelf's length, and mark the wall with a pencil at these locations. Subsequently, utilize a power drill equipped with a concrete bit to create two holes.

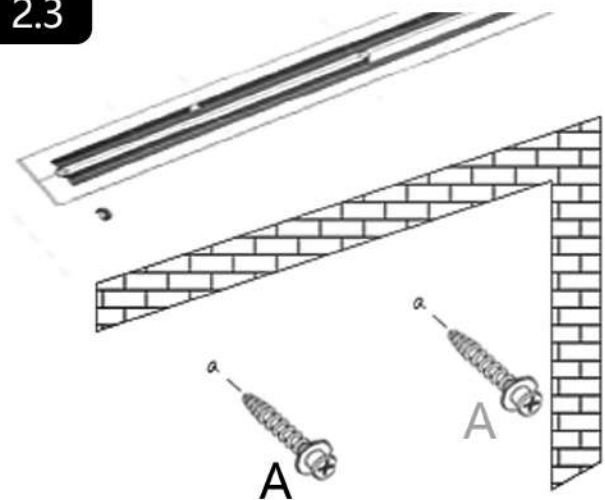

2.2 Put anchor (C) into the holes and tap it with a hammer gently.

2.3 Insert screw (A) and employ a Phillips head screwdriver to securely fasten the screws.

2.2

2.3

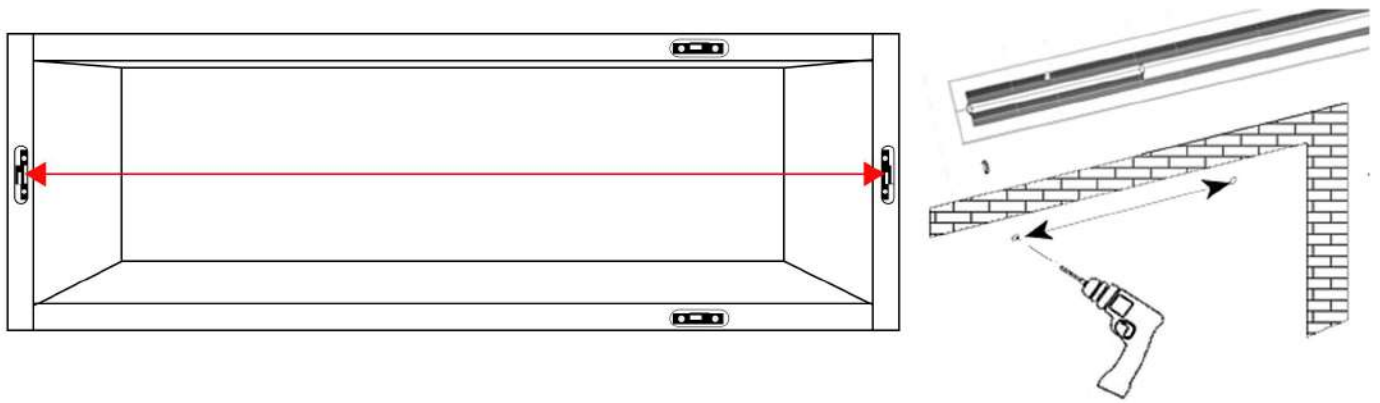

STEP 3

For wood wall installation

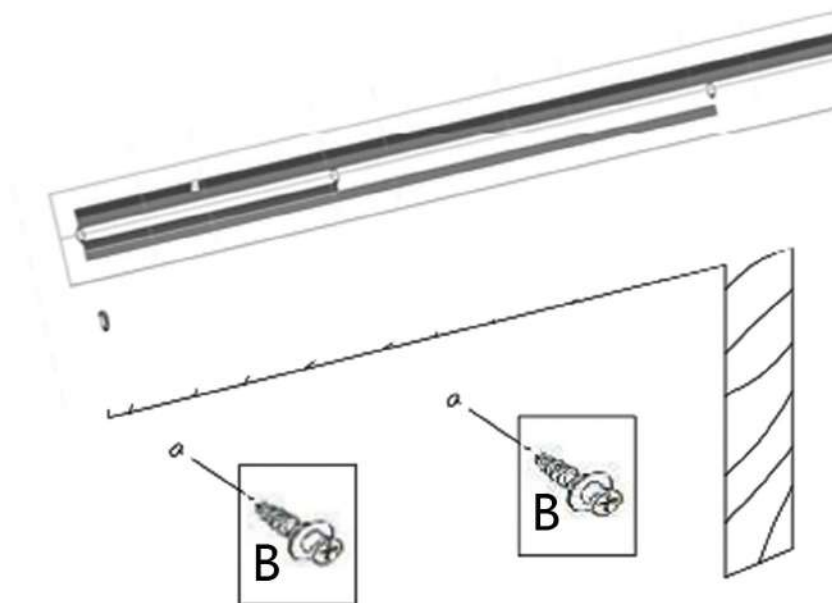

Parts: B×2, E×1

Tools: Paper tape, pencil, power drill with a phillips head or phillips head screwdriver

3.1 Identify two points on the paper tape (E) corresponding to the shelf's length, and mark the wall with a pencil at these locations.

3.2 Utilize a power drill equipped with a Phillips head or Phillips head screwdriver to affix screw (B) into the wall.

STEP 4

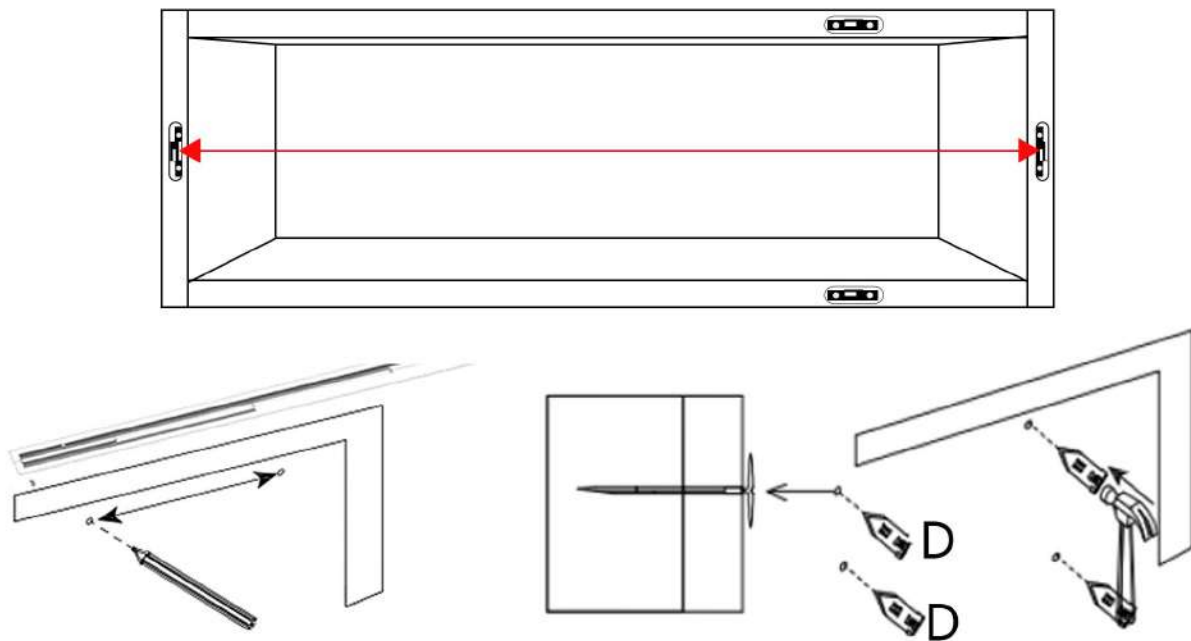

For drywall / plaster wall

Parts: A×2, D×2, E×1

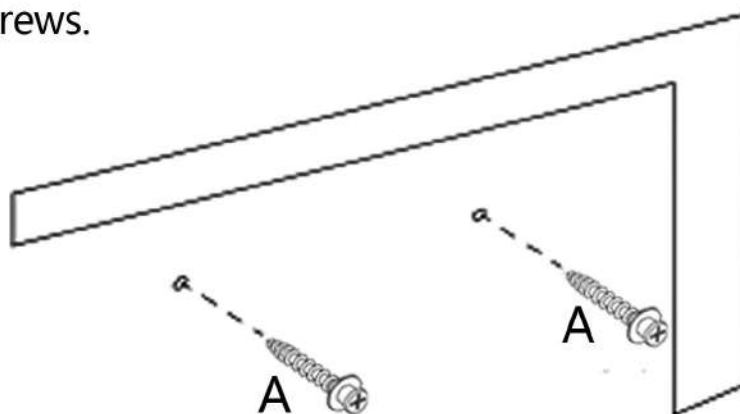

Tools: Paper tape, pencil, hammer, phillips head screwdriver, power drill

4.1 Identify two points on the paper tape (E) corresponding to the shelf's length, and mark the wall with a pencil at these locations. Gently drive anchor (D) into the wall at the marked locations using a hammer.

Attention: Anchor (D) comprises two metal components. Ensure place the longer piece facing up and keep both pieces parallel to the ground when tapping.

4.2 Insert screw (A) and employ a Phillips head screwdriver to securely fasten the screws.

Esteemed client,

Thanks for choosing Kaboon!

We maintain a firm conviction that your interaction with our furniture will be delightful, granting you enduring practicality and elegant style.

To ensure the product stays looking its best, we recommend the following daily care tips:

- ☒ *Wipe it regularly with a soft, damp cloth to remove dust or debris.*
- ☒ *Avoid using abrasive or harsh chemicals to clean it, as this can damage the MFC surface.*
- ☒ *Do not expose the product to extreme temperatures or humidity for a long time.*

*To provide the best service to you, do not forget to register your Kaboon product to confirm your warranty. It only takes a few simple steps and then you can access a wide range of services such as technical support, new product alert, promotions, and warranty services from Kaboon. Send your name and order ID to **support@kaboondesk.com**.*

We hope that your enjoyment of utilizing our product aligns with your expectations. Should queries or apprehensions arise, kindly reach out to us without hesitation.

Sincerely,

Kaboon Team
