Gather Parts: Take out the chair seat cushions (A1, A2) and the left and right armrests (B1, B2).

Place the left seat cushion (A1) on a stable, level floor.

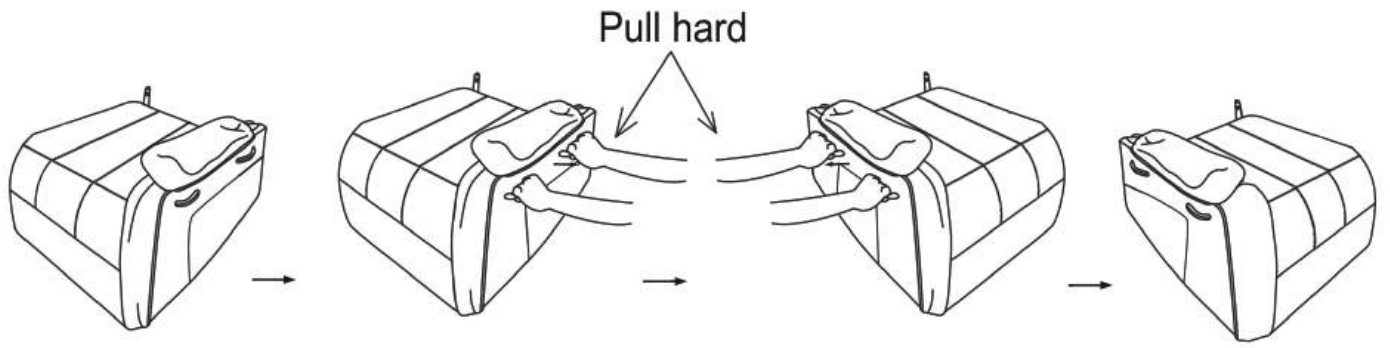

2. Attach Left Armrest:

At an upward angle, insert the connector of the left armrest (B1) down into the two connectors on the left seat cushion (A1). Push down until it clicks into place and is secure.

3. Attach Right Armrest:

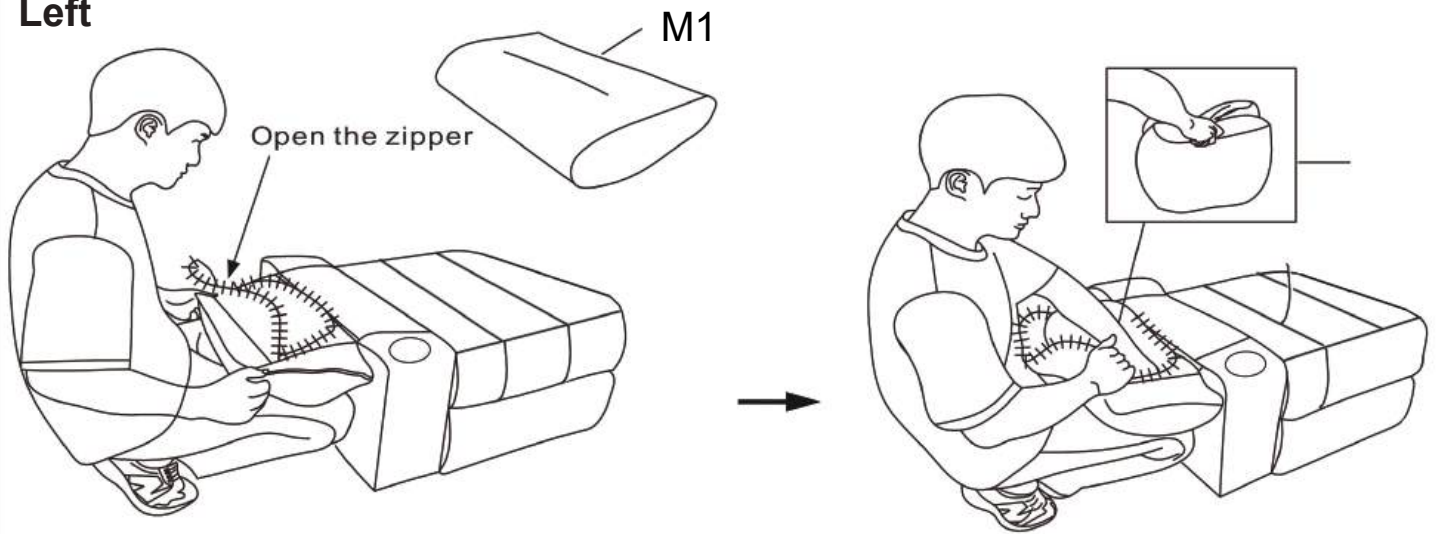

Follow the same steps to attach the right armrest (B2) to the right seat cushion (A2).

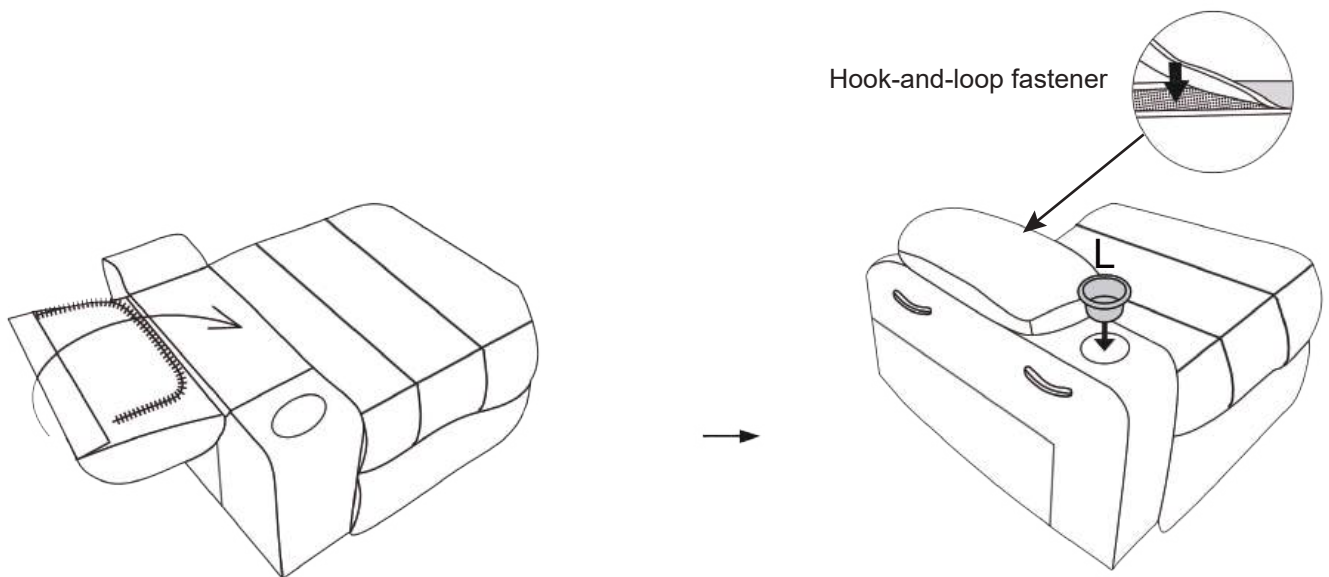

Locate the small tabs on the armrest panels. Grip the tabs and pull outward until you hear a click. The armrests are now fully extended and installed. To fold the armrests back down later, pull the tab handles outward in the same manner.
