Listen to Me II is a fine art print of a Strombus shell that captures the timeless beauty and elegance of this iconic seashell. Commonly known as a conch shell, this drawing details the shell’s elongated shape and polished exterior. Texture and pattern are prominent features of the work with its meticulously drawn variations in line and color. The color palette pops with shades of ultramarine blue, smokey grey, dove grey, and alabaster. Reminiscent of time spent along the coast, this work would be a lovely addition to collectors of seascapes.

A mesmerizing asymmetry forms between the interior and exterior in Listen to Me 2. Part of the carefully curated ART by TA collection, this work of art inspires a feeling of coastal tranquility on textured paper.
