④
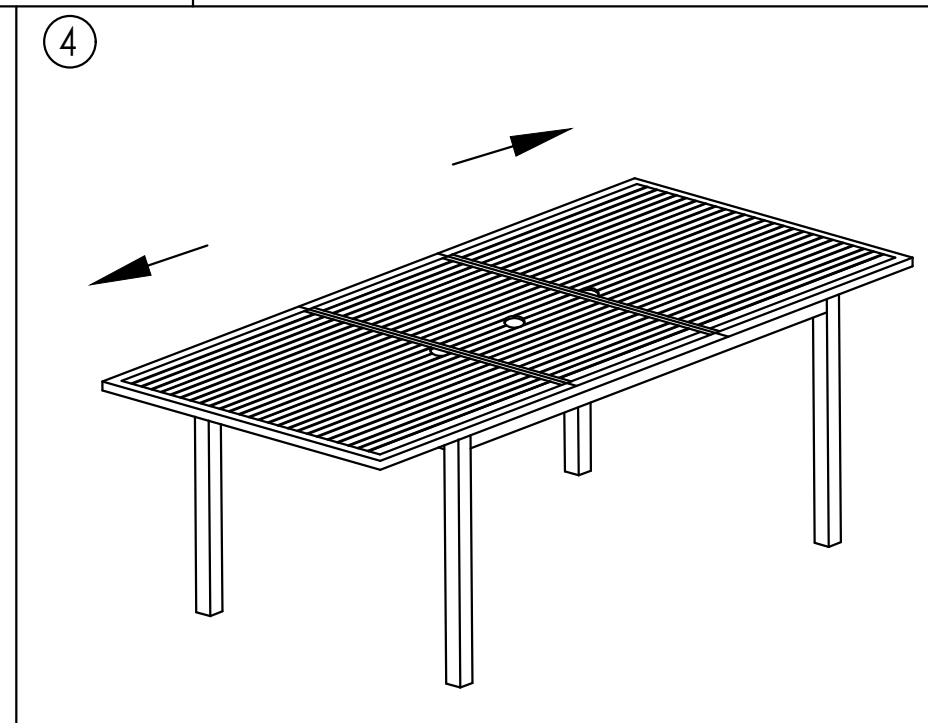

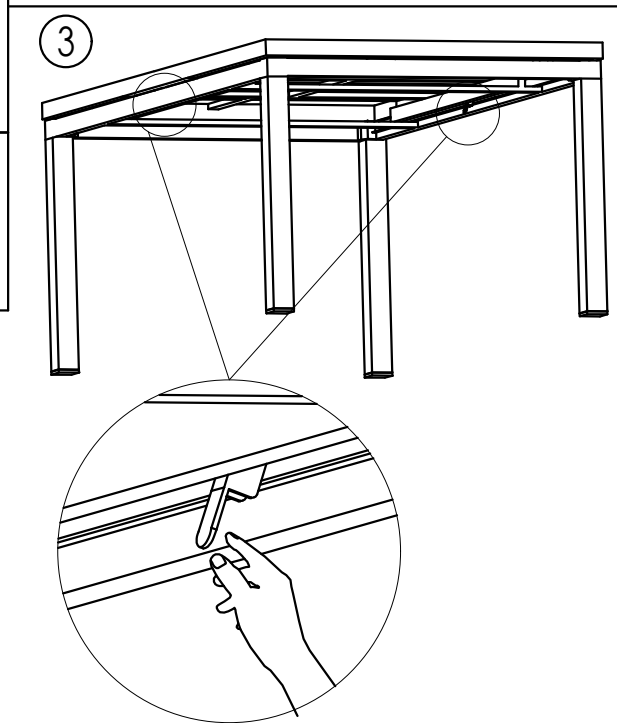

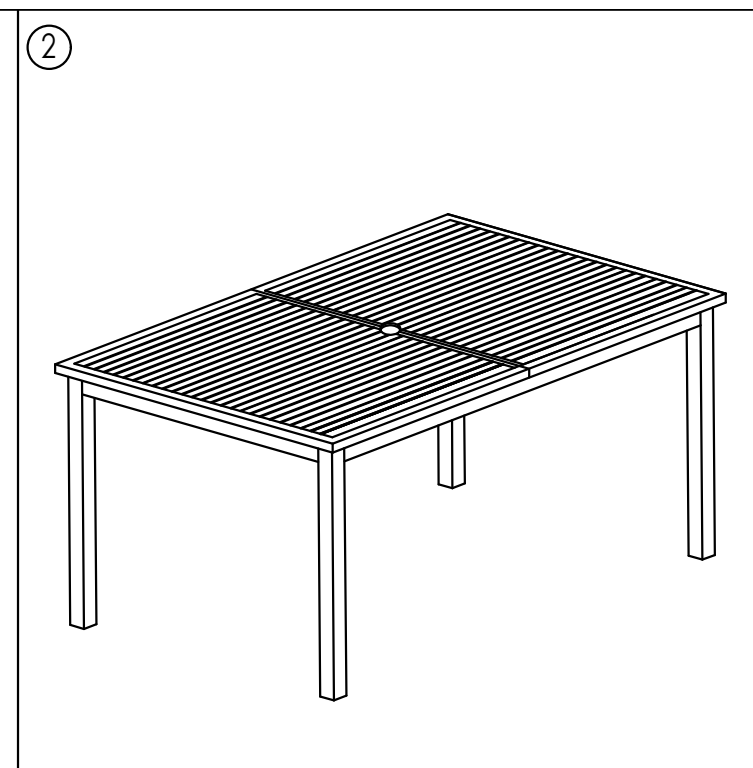

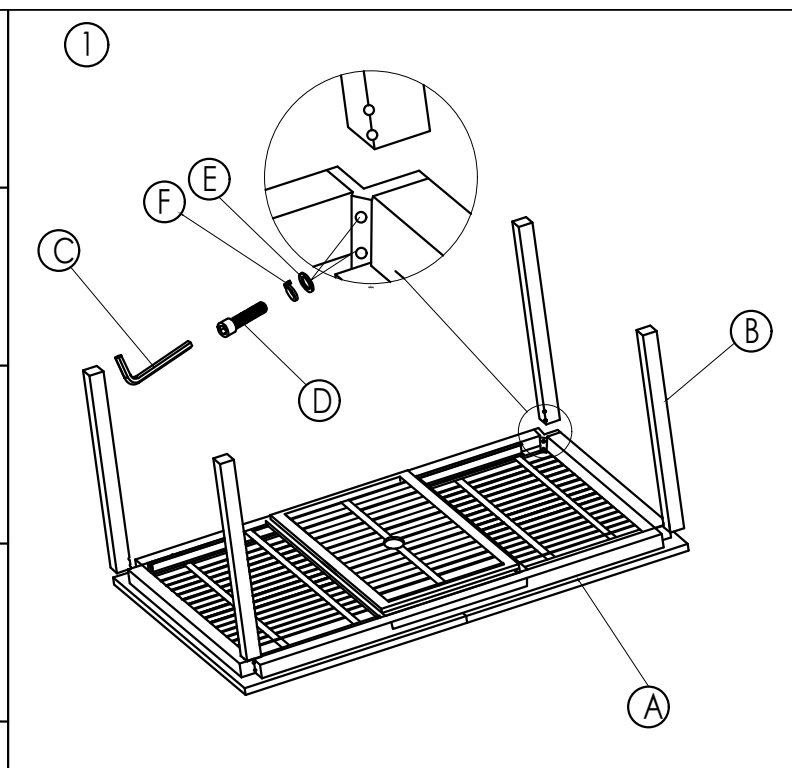

# A: How to extend the table top
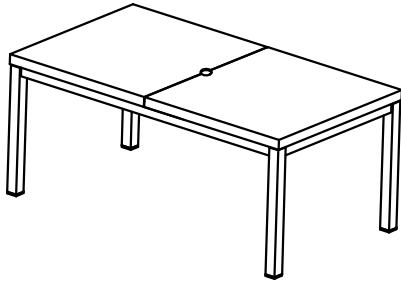

1、Place the assembled table on the flat horizontal ground;
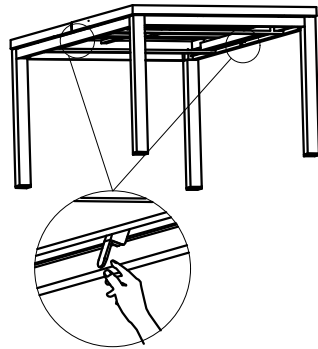

2、Unlock the system at both sides underneath the table top

3、Fully pull the top at both ends and make sure the center top part flush with the other top parts;

4、Slightly push the top parts at two ends to closely connect with the center top part and then lock the system underneath
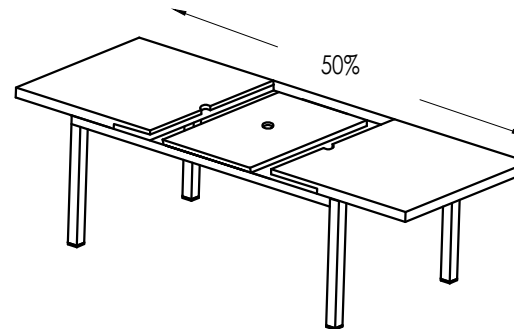

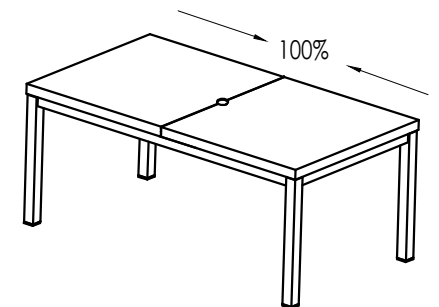

# B: How to draw back the table top

1、Keep the extended table on the flat horizontal ground;

2、Unlock the system at both sides underneath the table top

3、Slightly pull the top at both ends till the half way, then the center top part will glide to lower its position;

4、Slightly push the top parts at two ends to closely connect with each other and then lock the system underneath
