D	Top Bar	6
E	Stake	4
F	Short Bolt	8
G	Long Bolt	12
H	Nut	20
I	Hex Wrench	2

Tools Required for Assembly

Wrench or pliers

Assembly Instructions:

Estimated assembly time:

Approximately 20 minutes by 2 adults.

Step 1. Attach the two side girders (C) and one of the middle girders (B) to the same side of the two side frames (A) using four short bolts (F) and four nuts (H). Use hex wrench (I) (see fig. 2).

Step 2. Attach the two remaining side girders (C) and middle girder (B) to the other side of the frame (A) using four short bolts (F) and four nuts (H). Use hex wrench (I) (see fig. 2.)

Step 3. Attach the six top bars (D) to the top of the arbor using 12 of the long bolts (G) and 12 nuts (H) as shown in. Use hex wrench (I) (see fig. 2.)

Step 4. After the arbor is where you want it, fix it into place with the 4 stakes (E) (see fig. 3).

Tip: Tight all bolts after assembly.

Special Warning: After assembly is complete, use the provided stakes to increase stability. Be sure to stand on level ground.

Care and Maintenance: Clean with a soft rag and mild soap.
