

RECTANGLE WALL MIRROR INSTALLATION INSTRUCTION

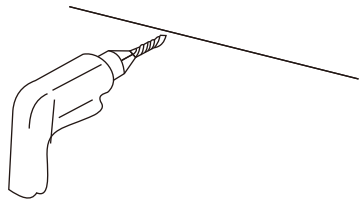

STEP 1: Measure the Distance

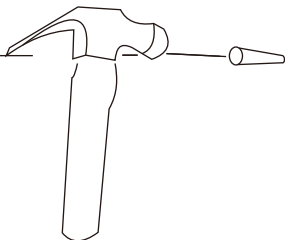

Measure the distance between the center holes of the mounting brackets on the back of the mirror.

STEP 2: Mark on the Wall

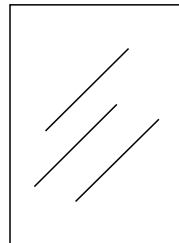

Mark the chosen positions on the wall surface and indicate the measured hole spacing.

STEP 3: Mount the Screws

1. Drill holes at the markings with an impact drill.
2. Insert the rubber plug and install the screws, leaving a 5mm gap.

STEP 4: Hang the Mirror

1. Hang the mirror and the installation is complete.
2. After installation, remove the mirror's protective film from the edge.
