## 1460X BUILT-IN DISHWASHER

### FEATURING ULTRAWASH® PLUS AND EASYFLEX™ THIRD RACK

This stylish Kenmore 24" Built-In Dishwasher works hard in the background, making sure dishes get clean. UltraWash® Plus technology provides more cleaning coverage and eliminates stuck-on food while the TurboDry™ system helps eliminate spots. The 45 dBA dishwasher is not only quiet, but holds 15 place settings and features an EasyFlex™ third rack to make sure everything fits just right.

1460x

# 24" Built-In Dishwasher

## Key Features

- **UltraWash® Plus** – This advanced cleaning system uses a trio of pressurized spray arms to blast dishes from every angle, cleaning with filtered, clean water every cycle.
- **UltraWash® Filter** – The three stage UltraWash® Filter captures particles as small as a grain of fine sand and drains them away so they can't redeposit on dishes.
- **EasyFlex™ Third Rack** – Adjustable third rack provides extra loading area for large utensils.
- **MoreSpace™ Adjustable Upper Rack** – Lower, lift or remove with ease, while empty, to accommodate large and oddly shaped items.
- **SmartWash® Cycle** – The SmartWash® Cycle smart sensor technology detects the amount of soil in the water and adjusts the water temperature, water pressure, and cycle time to deliver the best cleaning results for each load.
- **Accela-Wash Option** – Uses slightly more water and energy to clean dishes in less time without sacrificing performance
- **Quiet Wash** – For extra quiet, increases wash temperature and cycle duration while decreasing the noise.
- **Turbo Dry™ Drying System**– Delivers an extra dose of drying power by drawing moisture and warm air out of the dishwasher with a fan inside the door for spot-free dishes.
- **Capacity for 15 place settings** – This spacious family-sized interior can handle up to 15 complete place settings or loads of assorted dishes, pots and pans, and stemware.
- **Extra Dry** – This option increases water temperature at the end of the cycle and increases drying time by 20 minutes
- **Sanitizing Rinse Option** – Sani Rinse removes over 99.99% of bacteria from dishes
- **Delay Start** – Pause the start of the wash cycle for 1 to 24 hours, making it easy to add more items to the load or run the dishwasher during off-peak hours for utility savings
- **Digital Display with Countdown Timer**
- **Half-Load Option**

## About Kenmore

Kenmore provides affordable, purposeful home management innovations for cooking, cleaning, and the in-between. We design products and services for every room of the home to be energy-efficient, trusted to perform and promote overall well-being for our consumers and the environment.
