

# WARNING

The joining pin protrudes from the bottom of the back.  
Do NOT slide the hutch across the base unit as it may scratch the top.

## Safely Securing the Overshelf Hutch

1. Line up the bolt set in the hutch with the fitting in the base unit top.

2. Gently lower the bolt into the fitting, and using a crosshead screwdriver.

3. Tighten the fitting, turning clockwise.

**This fitting procedure must be carried out completely to ensure the hutch is attached properly to the base unit.**

**WARNING!**

**HEAVY UNIT**

**Must be fixed to  
Base Unit or Wall  
as appropriate**
