Assembly Instructions

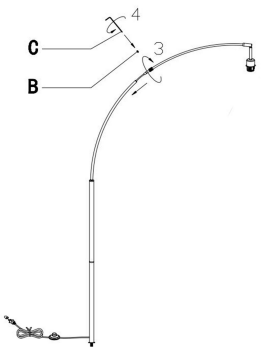

1. Connect the straight section to the elbow and tighten it clockwise. Then, connect the straight tube to the straight tube, and tighten it clockwise.

You may need to pull any excess cord gently through the poles so that these two parts fit.

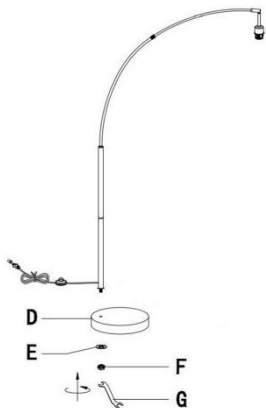

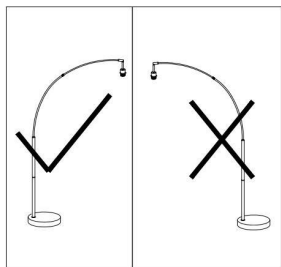

2. Insert the tube into the lower tube and then tighten it with a screw (C) using the wrench (B).

You may need to pull any excess cord gently through the poles so that these two parts fit.

3. Insert tube (A) into base (D) and tooth washer (E).Then, tighten it with the nut (F) using the wrench (G).

4. Place shade (H) onto the socket holder and turn the socket ring (I) until it is tight to secure shade.

5. Install the E26/medium base bulb on the lamp cap (Bulb sold separately).
