step1

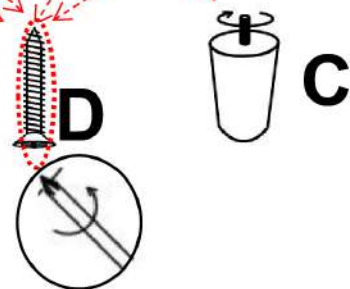

Take out B (wooden strip) and align it with the inner hole of A (sofa foot), then insert the wooden strip into the hole

step2

Attention: There is a pocket at the bottom of the sofa, and there are corresponding accessories inside when the zipper is opened. Align the inserted wooden strip with the bottom hole position, and then use screws to align with the three holes of A (sofa foot) to lock the sofa foot firmly.

step3

Attention: There is a layer of cloth strip under both seat cushions. Tearing off the cloth strip can better stabilize the seat cushion.
