

EASY DIY INSTALLATION

— BEAUTIFUL RESULTS IN JUST A FEW SIMPLE STEPS —

1 PREPARE THE SURFACE

Make sure your ceiling is clean, dry, and smooth.

2 MEASURE & PLAN

Measure your ceiling and plan your layout for a balanced look.

3 CUT TO FIT

Easily cut tiles with a utility knife or scissors to fit edges and corners.

4 APPLY ADHESIVE

Apply a strong construction adhesive to the back of the tile.

5 PRESS INTO PLACE

Firmly press the tile onto the ceiling. Hold for a few seconds to secure.

6 REPEAT & ALIGN

Continue installing tiles, keeping edges tight and patterns aligned.

7 OVERLAP THE EDGES RATHER THAN BUTT JOIN

Overlap the edges rather than butt join.

8 ENJOY YOUR NEW CEILING!

Step back and enjoy your stunning, real metal look in no time.
