

Thank you for choosing this high quality piece of furniture for your home.

The woods and veneers used in the production of this item have been selected for their natural beauty and characteristics. Woods is a natural material, and as such, each piece is unique. The depth and shade of colours and grain pattern will vary from item to item.

All timber surfaces when subjected to direct or indirect sunlight will mellow and change colour over a period of time. New furniture will initially vary in shade from items that have been previously purchased.

CARE OF YOUR FURNITURE

- Dust with a soft cloth.
- Remove spillages immediately to prevent damage to the surface.
- Stubborn stains may be removed with a damp cloth then dry the unit.
- Do not expose your furniture to any liquids. Never allow water to sit on your furniture. Alcohol, nail polish and perfume are also dangerous as they will dissolve the lacquer finish on contact and may require professional repairs.
- Do not place hot items directly onto the surface of the furniture - always use a coaster, placemats or trivets.
- Avoid dragging sharp or rough objects across the surface of your wood furniture.
- Hardware may loosen over time. Regularly check all connections and re-tighten as needed.
