Is your cabinet door looking crooked or unevenly spaced? (Cont.)

If you're still having trouble lining everything up, your next step should be to try to adjust the feet slightly to square up the cabinet & doors. Follow the illustrations below:

If the right door appears to be hanging low, you can adjust the adjustable leveler on the front right until the door is better aligned.

If the left door appears to be hanging low, you can adjust the adjustable leveler on the front left until the door is better aligned.

Proper Use

- | | |
|---------------|--|
