1. Place the Spout in center hole of sink.
Secure it with washers and lock nut.

2. Connect the RED striped supply line with the Hot water handle with RED indicator dot, while the BLUE one with the Cold water handle with BLUE indicator dot

3. Attach each handle with a washer and a threaded ring.
Ensure the handles are in the OFF position. Align the handles as shown.

4. Align spout tube ① outlet tubes ② on quick connect hose ③. Push quick connect hose ③ firmly upward and snap onto tubes ① ②. Pull down moderately to ensure each connection has been made.

5. Connect to water supplies.

6. Turn on the water supplies.
Check all connections for leaks.

· Every once in a while, please rinse the faucet with lukewarm soapwater, and wipe it clean with a soft duster cloth.
Please avoid any abrasive cleaners, steel wools, or corrosive chemicals.
