Read Before Beginning Assembly

ð Call our Customer Care phone number if you need assistance.
ð Work in a spacious area, preferably on a carpet, near where the unit will be used.
ð Recommended # of people needed for assembly: **2** (however it is always better to have an extra hand). Estimated assembly time is **1.5** hours.
ð Make sure all parts are included. Most parts are labeled or stamped on the raw edge.
ð Read each step carefully. It is very important that each step of instruction is performed in the correct order. If these steps are not followed in sequence, assembly difficulties will occur.

Caution

ð This product is designed for home use and not intended for commercial use.
ð This product contains small components. Please ensure that they are kept away from small children.
ð Do not use power tools to assemble your furniture. Power tools may strip or damage the parts.
ð A power tool and drill bit will be required to secure the bunk to the wall.
ð You will need a phillips headed screwdriver to assemble this product.

Helpful Hints

ð Move your new furniture carefully, with two people lifting and carrying the unit to it's new location.
ð Your DHP furniture can be disassembled and reassembled to move.
ð Some parts have been pre-assembled for this item. They are illustred on this page and available for replacement.

WARNINGS for Bunk Bed

ð Periodically check and ensure that the guardrail, ladder, and other components are in their proper position, free from damage, and that all assembly fastenings should always be tightend properly.

ð The bunk bed should not be used if any structural part is broken or missing.

ð Always use the recommended size mattresses or mattress supports, or both, to help prevent the likelihood of entrapment or falls.

ð Use only a single mattress which is **1900**mm long and **900** mm wide on both upper and lower beds.

ð The maximum thickness of the mattress used on the upper bed is **160**mm. The top of the mattress shall be at least 160mm below the upper edge of the guardrails.

ð High beds and the upper bed of bunk beds are not suitable for children under six years due to the risk of injury from falls.

ð Children can become trapped between the bed and the wall. To avoid risk of serious injury, the distance between the top safety barrier and the wall shall not exceed 75 mm nor shall be more than 230mm.

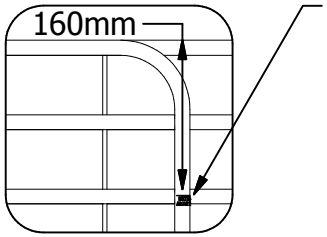
ð Strangulation hazard - Never attach or hang items to any part of the bunk bed that are not designed for use with the bed; for example, but not limited to, ropes, strings, cords, harnesses and belts.

ð Use of a night light may provide added safety for a child using the upper bunk.

ð Do not allow horseplay on or under the bed and prohibit jumping on the bed.

ð Always use the ladder for entering and leaving the upper bunk.

ð This bunk bed conforms to BS EN747:2012.



MATTRESS NOT
ABOVE THIS LEVEL

Please note the maximum mattress height is indicated on the vertical bar on the left side of the opening.
This is legal requirement and it is vital that the mattress does not exceed this mark.
