

PRODUCT USE AND CARE

Wood Furniture Care:

For general cleaning, use a soft dry, lint-free cloth to dust clean your natural wood product. Frequent dusting helps protect the finish.

If needed, clean with a soft, damp cloth then immediately dry with a different soft dry cloth. Do not get the wood wet as this will damage the item.

Use coasters; never let water stand on the surface of your furniture.

Keep furniture out of direct sunlight and always avoid placing hot dishes directly on a wooden surface. These actions will negate the warranty.

Wood Furniture Use:

Avoid placing wood furniture in steamy bathrooms unless designed for that purpose.

Maintain a consistent temperature in your home- keep your home neither too damp nor too dry to keep your wood furniture in excellent condition.

Linen/Upholstery Care:

Vacuum your linen upholstery regularly with a soft brush.

To handle spills use a clean, damp cloth to soak up the liquid. Do not scrub the stain. For additional cleaning tips refer to a professional upholstery cleaner.

Linen/Upholstery Care:

Do not place linen upholstery in direct sunlight

Metal Furniture Care

Use: If glass does not have a stem or is condensing, do not place cold/hot drinks directly on the table surface. Dry damp surfaces immediately.

Care: Wipe clean with a soft, damp cloth and dry immediately.
