The Microsaic Lines Cloud Gray Polished Marble Mosaic is composed of Alaska White, Halley Gray, and Wooden Beige marbles. The result is a modern iteration of the ancient Greco-Roman style of marble micromosaics, showcasing a warm, natural color palette. A polished finish provides an elegant final touch, making these mosaics perfect for adding grandeur to your space.

Micromosaics receive a contemporary update with the Microsaic Lines Collection. This TileBar exclusive collection showcases a modern iteration of the micromosaic format, with deep roots in the history of design. The mosaics in this collection comprise of natural marbles cubes arranged in stripes, with four different color palettes to choose from.

The Microsaic Lines Collection come in flexible 12" x 12" mosaic sheets that can wrap around curved surfaces as well as traditional floors and walls. The marble is cut with such precision that the mosaic requires much less grout than other collections. Install in a vertical or horizontal orientation to create the visual effect of expanded space or higher ceilings.
