

STORAGE BENCH

ASSEMBLY INSTRUCTIONS

ASSEMBLY INSTRUCTIONS

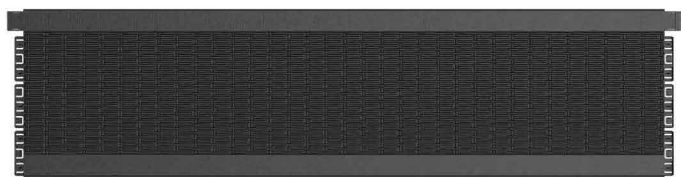

- Item identification: For ease of identification, all parts are labeled to correspond to the step number in which the part is used.
 - Force is required for installation.
-

ASSEMBLY PRECAUTIONS

- **Once the product is installed, it must not be disassembled. Please strictly follow each step in the assembly instructions!!!**
 - Check carefully that all parts are complete and in the correct quantity against the list of instructions. Pay attention to check whether the parts are damaged, deformed or surface defects, etc. If there is any problem, please contact customer service to solve the problem promptly.
 - Read the instruction manual carefully: Before you start assembling, make sure to read the assembly instruction manual carefully to understand every step and illustration. If there is something unclear in the instructions, you can contact the seller for a more detailed explanation.
 - Follow the correct assembly order: strictly follow the step-by-step order in the instructions, do not skip or change the steps arbitrarily. If you find a step difficult to complete during assembly, do not force the operation, but check whether there is any missing or wrong step.
 - Pay attention to the direction and position of parts: Each part has a specific mounting direction and position, which should be carefully confirmed during installation. Some parts may have markings or grooves that need to be accurately aligned with other parts to ensure accurate assembly.

STORAGE BENCH ASSEMBLY INSTRUCTIONS

1

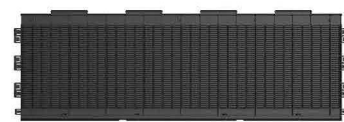

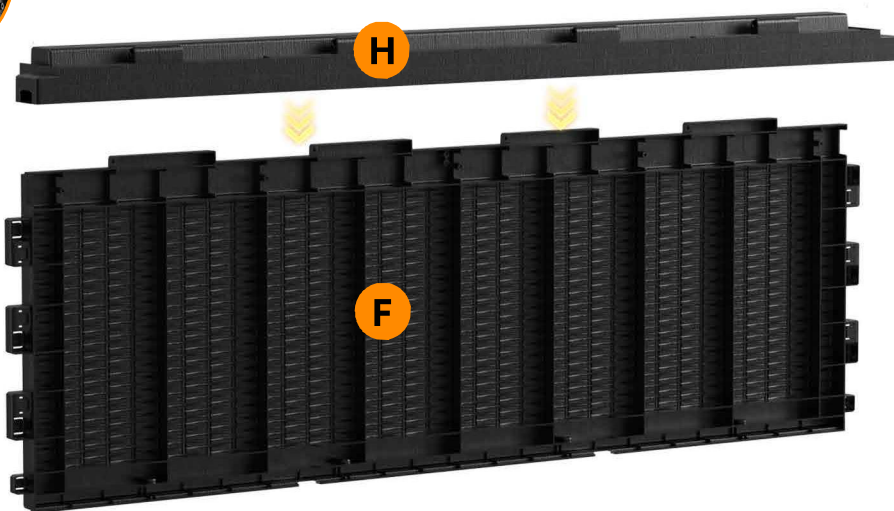

Remember to pay attention to the installation direction of each panel in all steps.

Carefully check the splicing position between the panels to ensure that they fit tightly and that the structure is stable.

Check the assembly of the entire storage chair to ensure that all panels are securely mounted and that there are no loose or excessive gaps.
