STEP 1

STEP 2

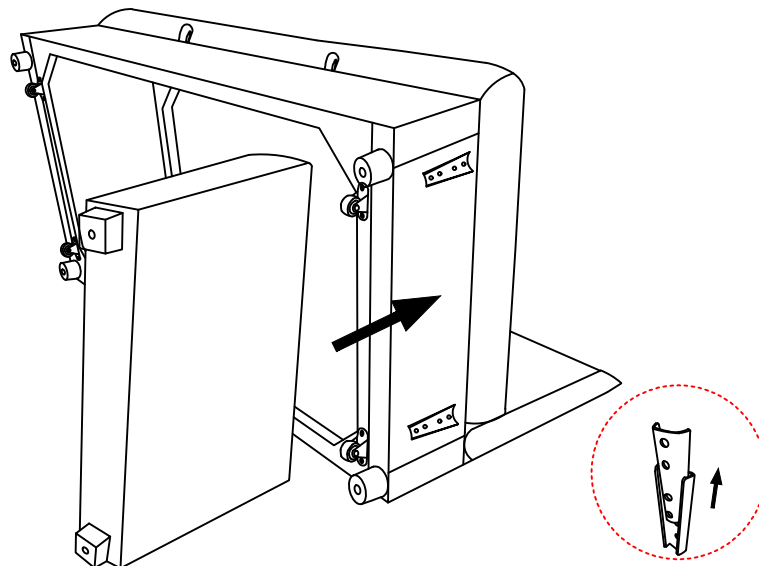

Pattern of sofa reference only.

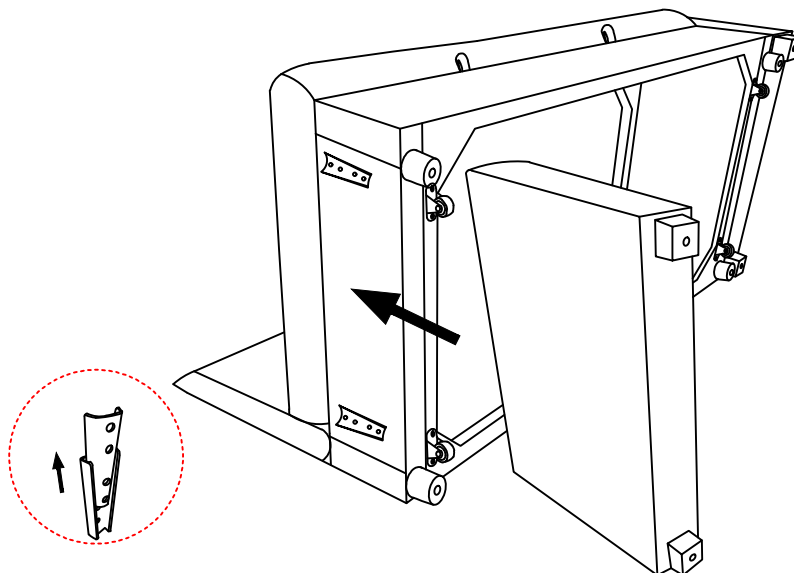

Install the sofa legs at the positions marked on the bottom according to the signs and fix them with screws.

STEP 3

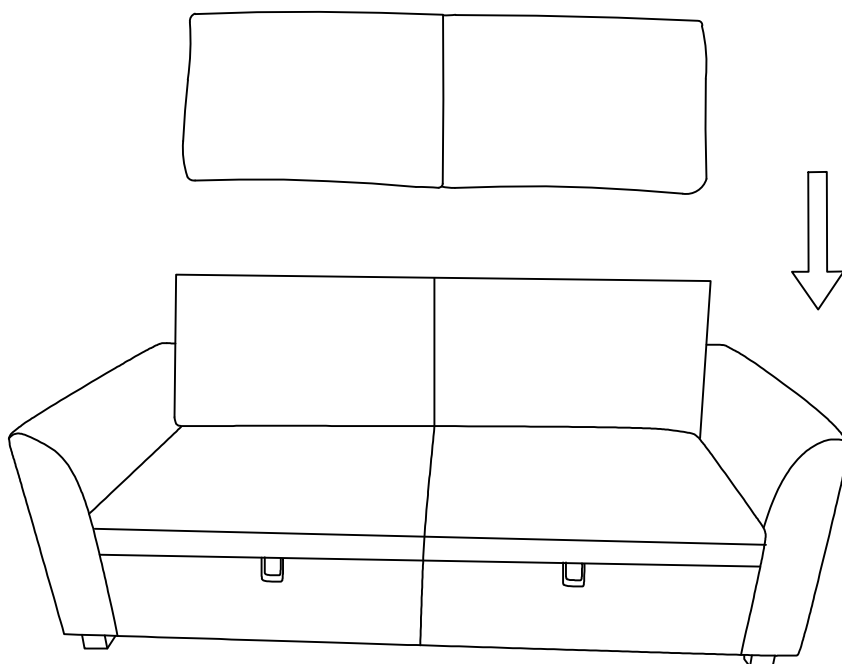

Turn the sofa over and stand it up. Hold the sofa armrest vertically. Align the top of the conical plug of the sofa armrest with the lower side of the conical plug on the side of the sofa. Ensure that it can cover the conical plug on the side of the sofa and make it stuck from left to right.

Perform the same operation on the other side. Then turn the sofa over and sit on it to make it more stable. During the assembly process, it is recommended that two people assemble the sofa as it will be easier.

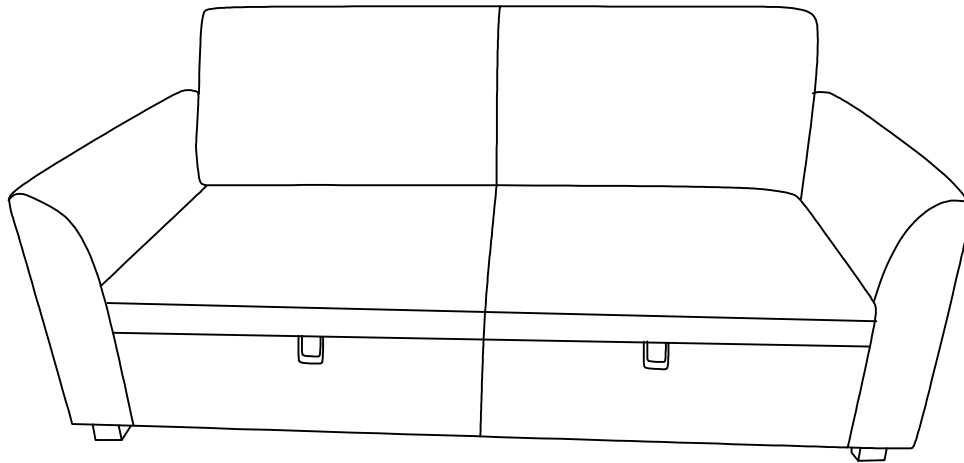

STEP 4

Put the sofa throw pillow in place.

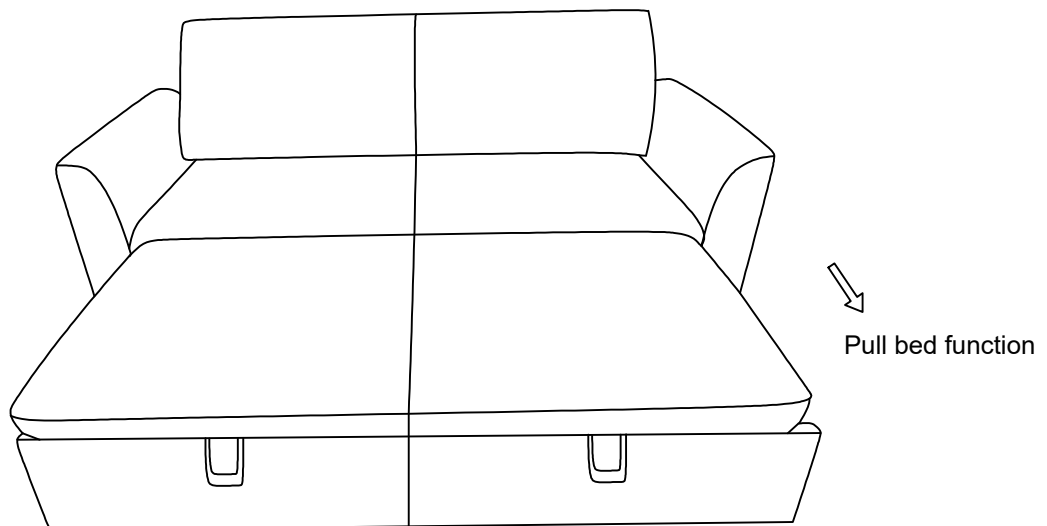

STEP 5

As shown in the picture, you will get the assembled sofa.

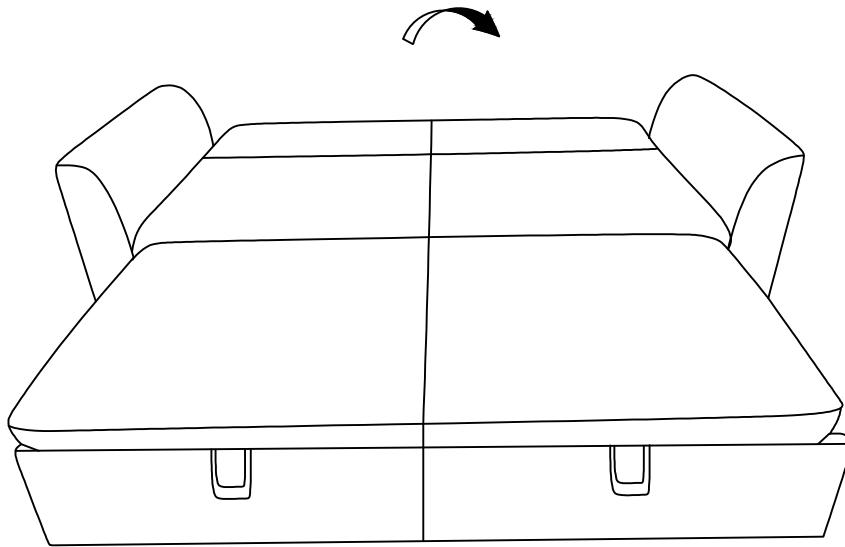

STEP 6

Grasp the pull strap with both hands and pull out the sofa bed horizontally. Then pull up the pull strap and lift and put down the sofa bed.

STEP 7

The backrest is adjustable. You can choose a comfortable angle and lift it up or put it down. When the backrest is lifted to the highest point, the gear can be reset.
