

# Installation Instruction

**Parts List:** 2 pieces of support plate/1 top plate/4 layers of trays/18 silicone rings/Chassis (1) 1 piece/1 piece of silicone steel ring/Chassis (2) 1 piece

Note: The chassis (1), (2) and the silicone steel ring have been installed before leaving the factory.

Step 1: Assemble the two support plates crosswise.

Step 2: Put the top plate on and then fix it with a silicone ring.

Step 3: After the laminates are defined, they are then laid flat to fix the silicone ring.

Step 4: Insert the 4 layers according to the required height and then fix them with silica gel.
