Allen key

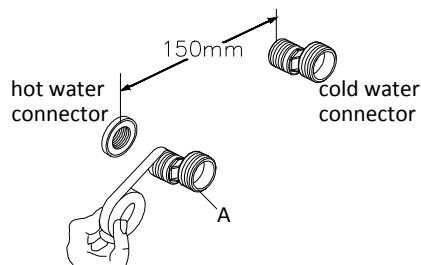

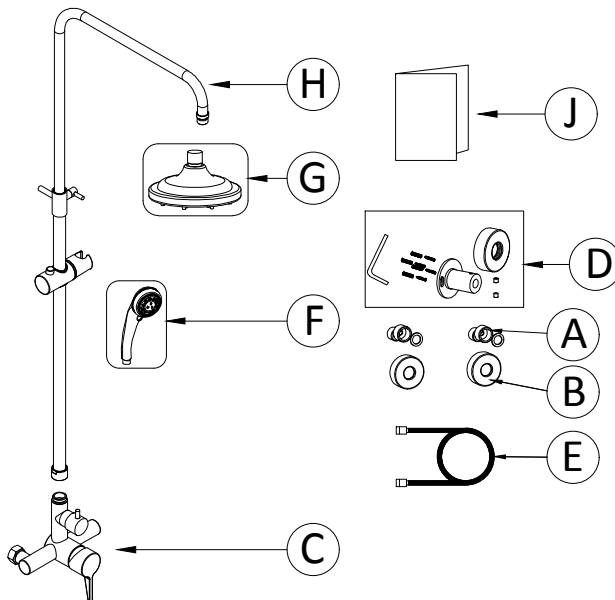

Philips Screwdriver

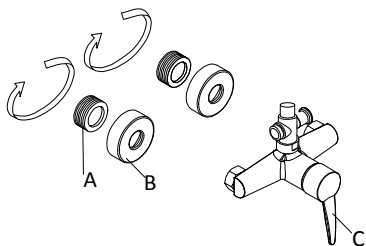

Teflon Tape

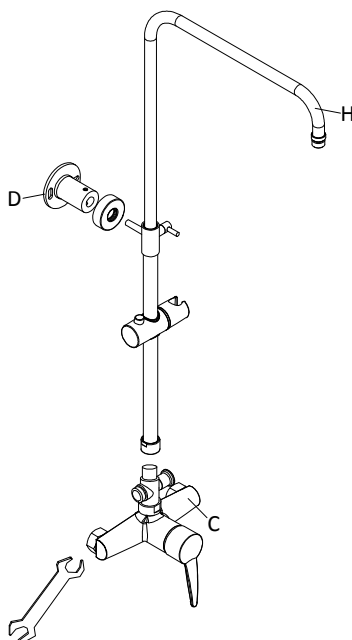

S/N	description	No.S
A	S-union	1set
B	Decoration cover	2
C	Body of mixer	1
D	Fixing holder	1set
E	Shower hose	1
F	Hand shower	1
G	Top shower	1
H	Spout	1
J	User's manual	1

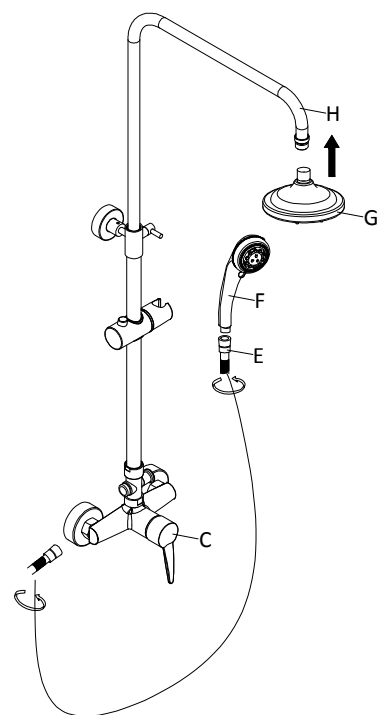

1.After wrapping the tape, connect the S-union(A) to the water outlet connector.(The distance between the hot water outlet and cold water outlet connector is 150mm,the height apart from floor should be fixed according to the bathtub height).

2.Screw the decoration cover(B) onto the S-union(A).

3.According to the size of the product you bought and mark the position of the fixing holder(D) on the wall. Fix the inner part of fixing holder to the wall. Then install the spout(H) to the fixing holder(D) and install the mixer's body(C) to the S-union(A) via the two connecting nuts, and fix them by spanner.(Note:wrapping some tapes on the spanner is suggested to avoid scratching the product surface).

4.Mount the shower hose(E) to the mixer(C) and hand shower(F). Then connect the top shower(G) to the spout(H).
