Using Camlocks

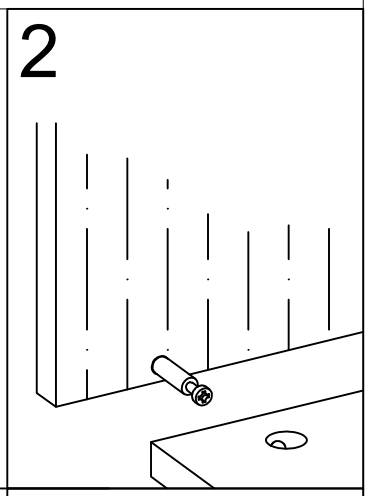

Connect the male camlock as directed in the assembly instructions using a screwdriver.

1 DO NOT OVER TIGHTEN

Push the male camlock into the entry hole.

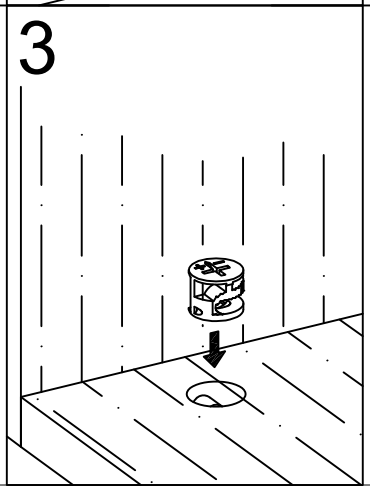

2

Insert the female camlock as shown in the instruction.

Note: ensure that the arrow on the top of the camlock points toward the entry hole for the male camlock.

3

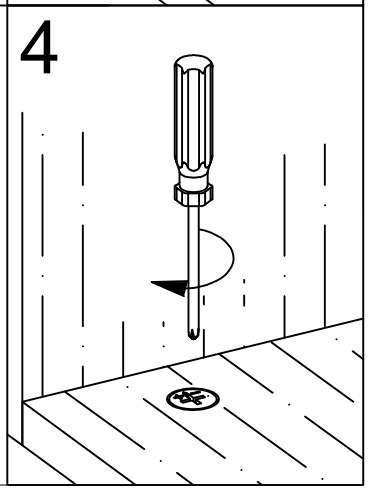

Turn the female camlock clockwise with a screwdriver.

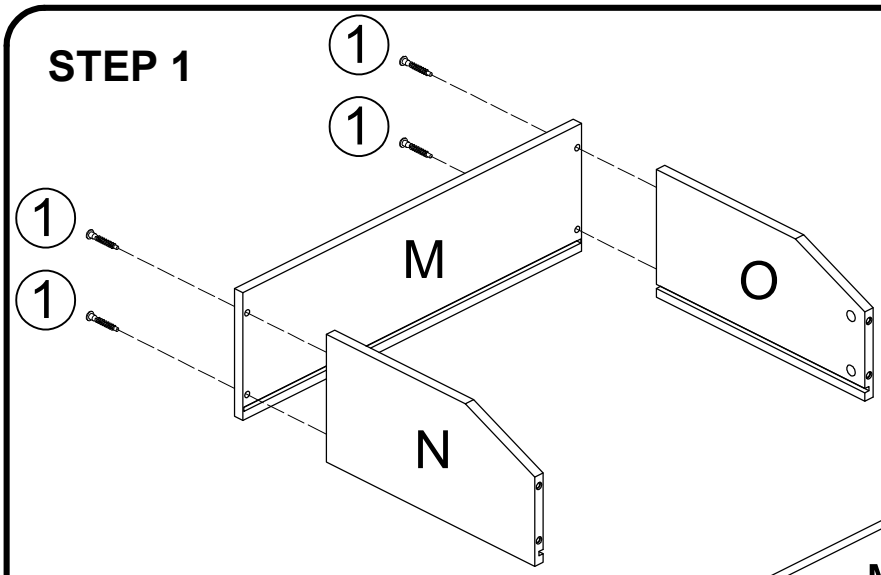

You should feel a click when the camlock is locked in place.

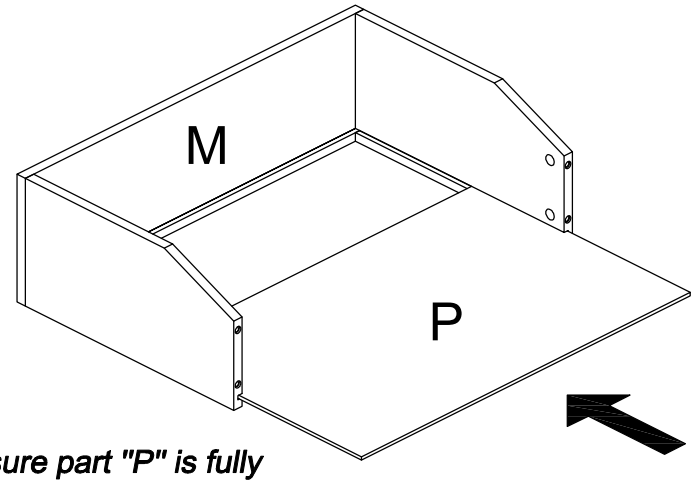

The joint is now secure.
